White House Scorecard | page 92

Seeking to empower voters to make more informed decisions, CAIR-Chicago has assembled the following scorecard for the 2018 General Election. Our scorecard is a guide that provides listings of key legislation and its corresponding voting records for the [100th General Assembly of Illinois](#) and the [115th Congress of the United States](#) in the 2017-2018 sessions. For the first time we are including a scorecard that recounts the agenda of the current [White House presidential actions](#) and the [decisions of the United States Supreme Court](#).

While voters can cast ballots for the legislative branch this elections, the Presidency is not on the ballot this year, and the Supreme Court justices are only appointed by the President and confirmed by the U.S. Senate.

For this scorecard guide, CAIR-Chicago chose to focus on legislation and issues related to civil rights and civil liberties that would have significant impact on the Muslim American community. These are issues that CAIR advocated for on behalf of our local and national communities. CAIR-Chicago encourages voters to further research the actions of legislators before supporting any particular candidate.

Given its 501(c)(3) nonprofit organization status, **CAIR-Chicago is nonpartisan and does not endorse any campaigns or candidates.**

Judicial evaluations provided by bar associations based in Chicago and Cook County are available [here](#).

Basic Information

HOW DO GENERAL ELECTIONS WORK?

General elections in the United States are the quadrennial (four-year) elections for the President of the United States. Federal offices that are up for election are members of the United States Congress, including all 435 seats in the United States House of Representatives and, in 2018, the full terms for 34 of the 100 seats (known as Class 3) in the United States Senate.

On the state level, there will be elections for the Comptroller in the executive branch. In addition, all Illinois districts for the state's House of Representatives, and 40 seats of the state Senate will have elections. However, many races are uncontested so they have only one candidate.

In relationship to the scorecards, voters should gauge the voting records of the incumbents and those not seeking re-election or not continuing for another term. This provides necessary perspective in the laws that govern the jurisdictions, which voters have the right to call on the newly elected office holder to ensure the support of the legislation, or propose new laws to strike down the measure.

When: Early voting begins Thursday, September 27, 2018; from Monday, October 22 to Monday, November 5, 2018 additional polling sites open. Election Day is Tuesday, November 6, 2018. The polls are open 6 AM – 7 PM.

Where: To find your polling place, contact your county clerk or [click here](#).

Eligibility Requirements:

- A U.S. citizen
- At least 18 years of age by Election Day
- Have been a resident of the precinct at least 30 days prior to Election Day

ID NEEDED FOR VOTING

In general, identification is not required to vote at the polls, although you will be required to verify your signature. However, there are individual circumstances that may require that identification be shown. In those cases, you must present a photo ID, and if the photo ID has an address, it must match the registration address. If a photo ID is not used, the document (examples of which are listed below) must show your name and address. This must be presented to an election judge before being permitted to vote.

If you registered to vote by mail after January 1, 2003, and you did not submit a copy of the required identification with the registration application at that time, and you will be voting in a jurisdiction for the first time, then you will be required to submit a copy of one of the following:

- Current and valid photo identification
- Utility bill
- Government check
- Paycheck
- Government document

IN-PERSON EARLY VOTING & REGISTRATION THROUGH MONDAY, NOVEMBER 6, 2018

Preceding Election Day, early voting begins Thursday, September 27, 2018, with additional polling sites available from Monday, October 22 to Monday, November 5, 2018.

Voters do not need to provide an excuse or reason why they cannot vote on Election Day. Government-issued photo ID is not required but is helpful if there is a question about the voter's registration, address or signature. Providing an ID can also speed up the process because we have ID card readers at every check-in station.

Any Chicago voter may use any site in the city for Early Voting & Registration now through November 7 -- regardless of where in the city the voter lives. If you're a suburban Cook County resident, you can register to vote at ALL Early Vote Sites in the suburbs. NOTE: Any voter who needs to register for the first time or file an address change or name change must present two forms of ID, one of which shows the voter's current address.

Illinois voters who vote during the early voting period must vote in person. A government-issued photo ID is no longer required but it is recommended if a common name is shared and there needs to be clarification to verify identification.

PROVISIONS FOR VOTERS WITH DISABILITIES

Numerous provisions are available to aid voters with disabilities. If you are a disabled voter you may request the opportunity to register at home and have registration materials brought to you. You may also request to register to vote by mail. If you are permanently physically disabled, in a nursing home or in a hospital, you may also be eligible for absentee voting.

The Help America Vote Act requires that election authorities have voting equipment in place for voters with disabilities to vote privately and independently, and Illinois is no exception. Additionally, there are options for a seated voting booth, voting assistance from a friend, relative, or two election judges (one from each party), and curbside voting. Language assistance is also available where required under amendments to the Federal Voting Act of 1992.

TIME OFF TO VOTE

Employers must grant employees two hours to vote during their regular working shift. This time off is unpaid unless specified otherwise by the employer.

PROVISIONAL VOTING

An election judge will issue you a provisional ballot at your polling place if:

- Your name does not appear on the lists of registered voters for the precinct
- Your voting status has been challenged by an election judge, poll watcher or another voter and a majority of election judges agree
- A court order is issued instructing your polling place to remain open after 7:00 pm (if this occurs everyone voting after 7:00 pm must cast a provisional ballot)
- You are required to show identification because you registered by mail, but you did not bring ID to the polling place on Election Day or early voting site. In this instance, you must supply the election authority with a copy of acceptable identification by 7:00 pm the Thursday after Election Day.

By law, you must vote in your assigned precinct for all votes on your provisional ballot to count. Provisional ballots are counted after Election Day. The election authority receives all provisional ballots and determines the registration status for each provisional voter within two weeks after the election. If it is determined that you are registered and eligible to vote, your vote will be counted. If you are not registered, your vote will not be counted, but the information you supplied on the affidavit form will serve as a registration application for the next election.

To check your voter registration status, [click here](#) and enter your name and address.

Supreme Court of the United States

LED BY CHIEF JUSTICE JOHN ROBERTS (I.E, REFERRED AS “THE ROBERTS COURT”), ACTIONS INCLUDE DECISIONS

15-606: Pena-Rodriguez v. Colorado

Summary: Broadens the criminalization of damage to religious property to include threats of damage to religious property, resulting in criminal penalties.

Decision: 5-3 for Pena-Rodriguez

15-680: Bethune-Hill v. Virginia Board of Elections

Can race be a predominant consideration even where it is the most important consideration in drawing a given district unless the use of race results in “actual conflict” with traditional districting criteria?

Decision: Unanimous for Bethune-Hill

15-1204: Jennings v. Rodriguez

Are noncitizens who are subject to mandatory detention under the relevant text of the Immigration and Nationality Act entitled to bond hearings, with the possibility of release, if their detentions last six months? Are the noncitizens entitled to release unless the government proves by clear and convincing evidence that the noncitizens are dangers to their communities and flight risks? Should the length of the noncitizen’s detention be weighed in favor of release, and should new bond hearings be provided automatically every six months?

Decision: 3-2 Decision for Jennings

16-111: Masterpiece Cake Shop v. Colorado Civil Rights Commission

Does the application of Colorado’s public accommodations law to compel a cake maker to design and make a cake that violates his sincerely held religious beliefs about same-sex marriage violate the Free Speech or Free Exercise Clauses of the First Amendment?

Decision: 7-2 Decision for Masterpiece Cake Shop

17-965: Trump v. Hawaii

Are the plaintiffs’ claims challenging the president’s authority to issue the Proclamation reviewable (“justiciable”) in federal court? Does the president have the statutory authority to issue the Proclamation? Is the global injunction barring enforcement of parts of the Proclamation impermissibly overbroad? Does the Proclamation violate the Establishment Clause of the Constitution?

Decision: 5-4 Decision for Trump
