Mr. Steve Allan
Commissioner
Calgary, Alberta

Dear Commissioner Allan:

On behalf of CCVO (Calgary Chamber of Voluntary Organizations), thank you for the opportunity to submit to the Public Inquiry into anti-Alberta energy campaigns.

When this inquiry was announced by the provincial government, CCVO expressed concerns about the potential for it to contribute to an 'advocacy chill' on the nonprofit sector in Alberta:

We have reviewed the recent submission to your inquiry from The Muttart Foundation and we are writing to offer our full support for its content.

I would be pleased to discuss any questions or comments you may have about the potential impacts of this inquiry on the nonprofit sector in Alberta, and how we can all play a role in mitigating those effects.

With thanks and best wishes,

David Mitchell
