

The Broadway Green Alliance (BGA) is an industry-wide initiative that educates, motivates, and inspires the entire theatre community and its patrons to implement environmentally friendlier practices. One sustainable practice that theatre-makers can implement is bicycle commuting.

Cycling significantly slows the rate of increase of emissions that contribute to climate change. If we all do our part and take to the bike lanes, we can dramatically decrease our communal environmental impact. Below is a list of garages with bicycle spaces; sheltered bicycle racks as well as a link to unsheltered racks; and Citi Bike stations in the Times Square area.
