Share the Shore

Attention Beachgoers!
As we’re having fun in the summer sun, it’s also easy to respectfully share the sand with the shorebirds who nest in our area at this time of year — specifically, the Wilson’s Plover, Least Tern and Black Skimmer. Helping these beach denizens safely hatch and raise their chicks is deeply meaningful, and a captivating teaching opportunity for kids.

Tips to help Shorebirds Survive & Thrive!
• Give nesting birds plenty of space. Signs or volunteers usually alert us to nesting areas.
• Where pets are allowed on beaches, keep them leashed, away from birds and off dunes.
• Remove trash and food scraps, which attract foraging animals and potential predators.
• Stay on marked pathways, and do not traverse beach dunes or other nesting areas.

More information from National Audubon Society about how to become a bird-friendly beachgoer.

Cautionary Note: Avian influenza has now been confirmed in wild birds found sick or dead in Florida, including waterfowl and other waterbirds, birds of prey and scavengers such as vultures, gulls and crows. There have been no cases of human infection to date, but it is currently recommended that no one handle sick or dead birds or other wildlife. For the most current information on the Florida outbreak and where to report bird mortalities, visit the Florida Fish and Wildlife Conservation Commission’s Avian Influenza page. Read National Audubon Society’s report on the spread of this disease in North America here.

Regularly scheduled birding field trips will resume in mid-August. Share your bird sightings on our Bird Board and Facebook Bird Board.

RSVP for an International Field Trip
Costa Rica: Birders Paradise | August 27 – 17, 2022 ONE SPOT LEFT!
Kenya Biodiversity and Wildlife Tour | May 25 – 28, 2023
Choco of the Colombian Andes: Birding the Coffee Triangle | July 23 – 31, 2023

Go-Native Plant Sale @TAS (Rain or Shine)
Saturday, June 4, 9am-4pm

Our annual Go-Native Plant Sale makes it easy for area residents to nurture and shelter birds, bees and butterflies, and create their own native habitat at home. Select from hundreds of native plants on offer — which can include Slash pine, Coontie, Pepperonia, Beautyberry Bush, bird and butterfly attractors, and more — and get cultivation tips from experts. Find inspiration on our 2.2-acre rain-native Steinberg Nature Center campus. Learn how to transform your yard, balcony or patio into an hospitable, nurturing oasis for indigenous and migrating birds, other pollinators and area wildlife.

**Bonus buys:** Limited quantities of wild "Tropical Honey" produced in on-campus beehives and harvested/bottled by TAS board member Kirsten Hines. Berries for admiring/inspiring, to include Gardens of Miami and Attracting Birds to South Florida Gardens.

**Bonus activities:** Take a 1am Bird Walk; attend a 10am Gardening for Wildlife Walk; visit the Bird-friendly Demonstration Garden; explore Pine Rockland and Tropical Hardwood Hammock forests; tour the historic Doc Thomas House; pack breakfast or lunch to enjoy in the shady picnic grove.

Net proceeds support upkeep of the bird-friendly gardens and grounds.

Dine-in or Take-out @Whisk Gourmet
Tuesday, June 14, 5-9pm

Make a dinner date at Whisk Gourmet and, in turn, Whisk will feature the proverbial TAS rest wth 10 percent of its dinner revenues. The local balsamic of Southern-accented American Comfort Food offers a refreshing summer menu, with Indoor Dining or Outdoor Covered Seating options, Take-out or Curbside-pick-up. (Deliveries are not eligible for this promotion.)

No matter how you choose to dine, you'll want to experience the Whisk menu authored by sensational Executive Chef Michelle Minetti (pictured), who infuses generous helpings of New Orleans and Caribbean influences to a beloved menu studded with time-tested house favorites. Born in Venezuela to Italian and American parents, Chef Michelle's colorful heritage and kitchen repertoire are simpatico with Whisk's always bright, boldly flavored seasonal cuisine.
Check out the daily fresh fish special, experience the melt-off-the-bone BBQ glazed pork loin ribs, savor the luscious shrimp and avocado salad, and don’t miss the famous fried green tomatoes. It’s for the Birds!

RESERVATIONS ARE RECOMMENDED for all on-site dining.

Save July 12 and August 9 for two more opportunities to Dine Out for the Birds!

This event takes place at Whisk Gourmet 7392 SW 36 Avenue Miami FL 33143
Limited on-site free parking available @whiskgourmet

Conservation News

Cape Florida Banding Station wraps up Spring Migration Season

Cape Florida Banding Station (CFBS) concluded its 2022 Spring Migration season on May 17 with 1,201 birds banded, 27 of which were return visitors from previous seasons. While spring activity started off quietly due to wind patterns, the first half of May yielded an excellent movement of birds. The station broke records for two species: Bicknell’s Thrush with 6 banded, and an astonishing 22 Connecticut Warblers banded! On one particular morning, banders observed several of the usually elusive Connecticut Warblers foraging on the grass — a behavior normally seen in Palm Warblers. Check out the latest CFBS blog for a rundown of all of the season’s visitors.

Spring Migration slows to a trickle in early June, as these transitory winter and migratory birds arrive at their summer breeding grounds, announcing their presence with song and foraging among the new flush of leaves in Mid-Atlantic and Northeastern forests. Among our year-round South Florida residents, the Northern Cardinals are busy instructing their fledglings as we head into our steamy summer.

Plants for Birds

Bird-Friendly Gardening Day @TAS!
Dig in Saturday, June 18, 9am-Noon

Help steward our Bird-Friendly Demonstration Garden and near-native Steinberg Nature Center grounds. Get hands-on experience creating wildlife habitat under the guidance of our resident Master Gardeners. Learn how to establish a bird-friendly garden in your own yard, patio or balcony. Sign Up!

Interested in setting up an organized Gardening Event at our Steinberg Nature Center? We welcome groups seeking a meaningful outdoor experience. We were delighted to host
The Birds Thank...

The Birds thank our most extraordinary 2022 lineup of inordinately generous, talented bands and solo acts for filling our Winter/Spring concert playbill to overflowing with an eclectic array of fabulous music.

After a 22-month pandemic hiatus Take Sixx inaugurated our signature Conservation Concert series in January with a compelling mix of classic and contemporary hits.

Standing O for members Dr. Steve Buloski, Dr. Steve Chaves, Dr. Enrique Hernandez, Dr. Ron Sano, Janet Scarpato and Aaron Whitman.

Their volunteerism set the tempo for the season.

Hard-driving Been There Done That filled the night air with enduring classic rock covers in February. Standing O for members Phil Allen, Jose Arechibala, Burt Bruton, Steve Caselli, Jerry Cohn and Denise Margolis.

The beat went on in March when Plan B delivered a repertoire of classic and contemporary Rock ‘n’ Roll standards. Standing O for members Alvaro Gomez, Dr. Scott Kenward, Al Larcina, Alex Leeds and Al Roque.

Four acts comprised April’s much-ballyhooed all-acoustic Birdstock jam. Standing O for solo songbird DeBris Millidge; Lyn’s Fish duo John Holcombe and Eric Wagner; solo artist Andy Walsh; and Acoustic Therapy’s Phil Allen, Burt Bruton and Tony Sinatra, and guest Bruce Furlong.

Standing O for solo folk artist and South Florida storyteller Grant Livingston, who so graciously opened our Sunday April 24 Members Migration gathering with an enchanting concert.

Door proceeds of $13,862 set a Conservation Concert Season record, and will help fund completion of the Tropical Audubon clubhouse.
