The Southern Galvanizing Company
Terms and Conditions of Galvanizing Services

By delivering material to The Southern Galvanizing Company, you acknowledge that you have read and accepted our terms and conditions of sale and of galvanizing services.

1. Materials will be galvanized in accordance with ASTM A123, and material should be purchased/fabricated as it relates to ASTM A123, ASTM A384 (distortion) and A385 (fabrication, steel chemistry). Further information about ASTM standards is available upon request.

2. Single dip dimensions: 32’ x 6’- 10” x 6’. Prices are based on the galvanized weight of single dip uncoated/unlacquered material.

3. For overhead fixturing purposes in preparation for galvanizing, pieces to 6’-10” require a hole in one end. Longer pieces require holes in both ends.

4. Surcharges may be assessed for installing fixture/vent/drain holes, removing paint or stickers from material, removing previous zinc applications, processing oversized items, brushing threads, and expediting.

5. Oversized material (larger than our single dip dimensions), three-dimensional items (frames, platforms, assembled stairs, trash racks, and similar), and bulk small parts (under 5# and 10#) require special pricing, unless quoted above. Please contact us in advance of delivery.

6. Handrail is to be vented externally, no exceptions.

7. While we use all best practices to avoid undesirable outcomes, we will not accept responsibility for materials that (a) distort or break due to the heat of the galvanizing process, or (b) are not metallurgically suitable for galvanizing.

8. Hot dip galvanizing results in an industrial finish to the steel. We will not accept responsibility for failure of the paint or powder coating to adhere to the zinc surface or perform to the paint manufacturer specification. Galvanized steel will meet the ASTM A-123 specification. It is the responsibility of the paint contractor to properly prepare the surface thereafter if the industrial finish substrate is undesirable.

9. The quality of the galvanized coating must be accepted before the material is installed, erected, and/or painted. No quality claims may be made afterwards.

10. Please preschedule (3-4 days in advance) for best turn-around/quickest delivery. S&R hours: 7:30 AM - 3:30 PM

11. Quote valid for 90-days, please reconfirm after that period.

12. Visa/Mastercard/American Express accepted.

FOR SPECIAL JOBS OR MATERIAL NOT COVERED BY THIS QUOTE, PLEASE CONTACT US FOR PRICES

These terms and conditions apply to all current, ongoing, and future services provided by The Southern Galvanizing Company, unless otherwise expressly agreed.
