## NOIR

30-minute dance performance  
5-minute behind the scenes documentary screening

“Noir” is inspired by the dark themes of 1940’s cinema and its anti-heroine, the femme fatale, who uses her femininity to lure men down a destructive and dangerous path. Historically born from a time when soldiers came home from fighting in World War II to find women more independent, therefore challenging gender roles of that time. NOIR depicts the ongoing battle of a woman’s desires to shake society’s scrutiny which deems her subversive, provocative and thus, a villainess femme fatale.

## YOL

6-minute dance performance  
5-minute behind the scenes documentary screening

A short dance film choreographed, danced, and edited by Seda Aybay with cinematography by Carl Owens.

## DEDIKODU

40-minute dance performance

“DediKodu” explores shedding the burden of cultural expectations and judgements in favor of celebrating personal choices over societal scrutiny. The title comes from the Turkish word for ‘gossip.’ However it has been visually separated into ‘dedi’ meaning ‘said’ and ‘kodu’ meaning ‘set’ as a play-on-words used to illustrate how we often succumb to what is said about us, falling into the prescribed version of ourselves, a version others foist upon us.
