# BIOGRAPHIES

Creativity. Charisma. Virtuosity. Energy. Eccentricity. Just a few words to describe **THE LOST FINGERS**, a Québec-based band specialized in revisiting well-known songs in Django Reinhardt's gypsy jazz style. The reference to this legendary jazz talent can even be found in the name of the group, which refers to the two fingers lost by Django Reinhardt in the fire in his caravan in the 1930s.

## ***BYRON MIKALOFF - ROSALIE ROBERGE - FRANÇOIS RIOUX - ALEX MORISSETTE***

As award-winning headliners, **THE LOST FINGERS** have sold over 400,000 albums across the world, including their Canadian double-platinum selling debut, "Lost in the 80s" (2008), and gold selling "Rendez-vous Rose" (2009). They have performed in over 22 different countries around the world and have shared the stage with a long list of top-selling artists, such as Celine Dion on TV's Star Academie. Over the years, the band has also collaborated with respected jazz/studio musicians such as Bireli Lagrene, the belated George Harrison's favorite guitarist Robin Nolan, or the guitar virtuoso Andreas Oberg, to name a few.

***Swing, smiles, humor, musicality, and crazy costumes will be at the rendez-vous!***

**JOHN JORGENSON** joins The Lost Fingers on stage for this one night event in Los Angeles. The Grammy-winning guitar virtuoso & multi-instrumentalist is known for his broad musical palette, and has collaborated with the likes of Earl Scruggs, Bonnie Raitt, Elton John, Luciano Pavarotti, Bob Dylan, and many others.
