Q & A regarding fee increase

Q: Why are the resource materials and student administration fees being increased?

A: The Nunavut Arctic College has not raised fees since the 2010/2011 academic year. We factored a 3% yearly increase due to inflation.

Q: Why is the tuition fee increasing?

A: The Nunavut Arctic College has not raised tuition costs since the 2010/2011 academic year. Also, the tuition is no longer based on the number of courses; it is based on the number of credits that the courses are worth.

Q: Why do learners pay a Student Association Fee?

A: This fee is to cover some college expenses. This can include administration fees, library use, shuttles, some graduation expenses, and other costs that are created for the learners.

Q: Do I still need to pay this if I am not taking a course at one of the main campuses?

A: Yes, administration fees are still applicable. Students still have access to the campus library (via email) as well as graduation ceremonies or celebrations.

Q: Why do learners pay a Resource Material Fee?

A: This fee is also to cover some program expenses. This can include books, e Books, teaching aids and other resources required for your specific program.

Q: Do I still need to pay this if we don’t get any books for our program?

A: Yes, all programs require resources so they can be taught successfully. They may not be books.

Q: Why are these fees non-refundable?

A: Once a learner is registered, they have been given a seat in a program that cannot be given to someone else. The resources would have been purchased and there are many administrative functions that must happen to accept a learner into a program.

Q: What is a full-time learner vs a part-time learner?

A: A fulltime learner must be enrolled in 60% or more of a fulltime course load. A part time student is someone who takes less (for example, taking 1 course per semester).
