The Texas International Education Consortium strives to build partnerships between Texas members and international partners for long-term activated institutional partnerships.

From dual-degree programs to faculty cooperation, joint research, grant proposals, student mobility, and more, TIEC’s matchmaking services provide a collaborative framework to advance university partnerships and institutional excellence around the globe.

“Successful partnerships are built on complementary goals and academic objectives. That can be hard to find. TIEC does a deep analysis to make the best match for our members and our clients.”

— Robin J. Lerner, J.D. President and CEO at TIEC

ABOUT TIEC

With over three decades of experience in forging new alliances between Texas academic institutions and partners around the globe, TIEC identifies potential partners and lays the groundwork for a productive and fruitful relationship between institutions.

TIEC’s consortium of 38 universities consists of nationally-recognized scholars and highly-ranked degree programs in areas such as health sciences, agrotech, oil and gas production, technology commercialization, entrepreneurship, education, and sustainable and renewable energy. TIEC serves as a door to a diverse range of potential partners to help you achieve your strategic goals.

OUR APPROACH

TIEC is uniquely positioned to liaise between Texas’ esteemed universities and partners to encourage collaboration and partnerships between universities through a phased and iterative process.

• Provide individualized, in-depth research and recommendations on TIEC institutions open for partnerships.
• Identify complementary and mutually-beneficial academic programming.
• Facilitate a networking event, either in person or virtually, with a curated audience of university leadership.
• Facilitate introductions and convene one-on-one meetings with deans and faculty.
• Craft a collaborative, activated, and sustainable partnership model.
