The Apprenticeship Program
Apprenticeship program offers an educational training system the teaches trade knowledge and safety, for Cement Masons & Plasterers, with on-the-job training. Apprentice learn skills, safety, formal hand on and concepts needed to understand and expertly work on the job sites. On-the-job training is provided by the employers and supervised by journeymen. Apprentices are placed on construction jobs, and paid while they learn and gain valuable experience. Apprentices receive a minimum of 144 class hours. 4 weeks of educational training per year to develop their skills. The program is 4 years and includes a minimum of 4000 hours of on-the-job training to receive Journeyman pay-level. Training Center is located in Anchorage. Participants living 50 miles outside of Anchorage shall receive assistants for training in Anchorage. To complete the program, apprentices must successfully complete required hours and be able to perform all work operations of their trade.
