The Apprenticeship Program
Apprenticeship program offers an educational
training system that teaches trade knowledge and
safety, for Cement Masons & Plasterers, with
on-the-job training. Apprentice learn skills, safety,
formal hands on and concepts needed to
understand and expertly work on the job sites.
On-the-job training is provided by the employers
and supervised by journeymen. Apprentices are
placed on construction jobs, and paid while they
learn and gain valuable experience. Apprentices
receive a minimum of 144 class hours. 4 weeks of
educational training per year to develop their skills.
The program is 4 years and includes a minimum of
4000 hours of on-the-job training to receive
Journey worker pay-level. The Training Center is
located in Anchorage. Qualified Participants living
50 miles from training center can receive
assistants for training. To complete the program,
apprentices must successfully complete required
curriculum and OJT hours and be able to perform
all work operations of their trade.
