(Solvang, CA, July 10, 2018) – You are invited to join the Wildling for its annual photography competition, Nature Regenerated, celebrating its 10th year! This year’s photos capture examples of nature’s magical ability to regenerate and thrive. All the images from both the adult and junior categories will be exhibited together this year, on the second floor, in our Valley Oak Gallery from August 4th through November 5th.

Cash awards will be announced at the exhibition opening. This year’s guest judge is Bill Dewey, who has extensively photographed the tri-counties through its many cycles of regeneration and is known for his aerial photography.

**About the Wildling Museum**

The Wildling Museum of Art & Nature, where art and nature meet, offers visitors a unique perspective on the importance of preserving our natural heritage. Through the eyes of artists, and education and field experiences, guests can renew their relationship with the wilderness and understand its fragile nature – hopefully leaving more committed toward ensuring those spaces remain for future generations.

The Museum is open from 11 a.m. to 5 p.m. weekdays and on weekends from 10 a.m. to 5 p.m. (closed on Tuesdays). For more information, and to volunteer and/or join as a member to support this important local arts and nature institution, please visit.
