MICROSEMINAR PROPOSAL GUIDE

Name:

Title:

Institutional Affiliation:

Previous GCWS teaching experience, if any:
  Course:

  Semester/Year:

Proposed micro-seminar title:

Micro-seminar description:
Please limit this to one paragraph and be sure to include a very clear explanation of the focus of the seminar, including the lines of inquiry and topical or theoretical considerations that will be engaged.

Micro-seminar dates:
These dates can be general, and indicate a range (late September-mid October, for example). If you can offer at least two ranges, we can better coordinate all seminars in one year. If your micro-seminar is scheduled around a particular local event or speaker series, please indicate that in the syllabus table below, in the column “meeting focus,” and description above.

Proposed syllabus:
In filling out the syllabus table below, please
  • use questions or descriptions to frame each meeting
  • include the full citation for reading assignments

Participants should have advance reading and writing assignments or the equivalent, just as in a full-length seminar. However, the writing is not graded or assessed (except for completion), but rather serves as a preparatory exercise for discussion.
Assignment guidelines:
- Writing: no more than once per seminar meeting and no more than 3 double-spaced pages or equivalent
- Reading: up to approximately 60 pages per seminar meeting
