About The ASTM International Conference on Additive Manufacturing (ICAM 2020)

As additive manufacturing (AM) technologies are adopted by various industries, establishing feedstock-process-structure-property-performance relationships becomes essential for qualification and certification of parts, specifically in safety critical applications. This conference will address application specific requirements of various industry sectors in addition to covering the fundamentals of the AM process chain.

Industry, academia, and government agency professionals in the AM community are invited to participate and help address the need for industry standards, design principals, as well as qualification and certification challenges. Materials of interest include metals, polymers, composites, and ceramics.

The ASTM International Conference on Additive Manufacturing (ICAM 2020)

Student Presentation Competition

Graduate and undergraduate students are cordially invited by ASTM Additive Manufacturing Center of Excellence (AM CoE) to participate in the student presentation competition to be held in Orlando, Fla. in conjunction with ASTM International Conference on Additive Manufacturing (ASTM ICAM) on November 16-20, 2020.

Interested students must prepare and submit an abstract no later than May 1st. The abstract title should be no more than 10 words and the abstract itself is limited to 150 words.

Each participating student will receive:
- Free hotel accommodations during stay in Orlando (each two students should share a room and for up to 3 nights)
- Discounted registration to attend conference sessions and social events to network with additive manufacturing experts from academia, industry and government

1st Place: $500 (Plus a plaque)
2nd Place: $300 (Plus a plaque)
3rd Place: $200 (Plus a plaque)

The number of students approved for this competition will depend on the quality of the submitted abstracts and the availability of sponsor funds.

Please make sure to submit your abstract only to the student competition symposium for consideration.
