SURFACE MOUNTED IRON RIM DEADBOLT CYLINDER LOCK

FEATURED IS A SOLUTION FOR INTERIOR DOORS THAT REQUIRE A CYLINDER LOCK WHILE MAINTAINING A UNIQUE HISTORIC DETAIL. THE TRADITIONAL RIM LOCK CASE ENCLOSES A MODERN COMMERCIAL GRADE CYLINDER. IDEAL FOR INTERIOR DOORS LESS THAN 1 3/8" THICK THAT ARE TOO THIN FOR A STANDARD MORTISE CYLINDER LOCK. A SOLID BRASS COVER CONCEALS THE CYLINDER ON THE OUTSIDE WHILE THE TURN PIECE OPERATES THE STEEL BOLT FROM THE INSIDE. RH LOCK IS SHOWN.
