The Dassama Laboratory within the Department of Chemistry and Chemistry, Engineering, and Medicine for Human Health (ChEM-H) Institute at Stanford University looking to fill 2 postdoctoral positions with highly motivated and perciptent candidates. Ideal candidates will have completed (or be close to completing) a Ph.D. in Chemistry, Biology, or a related discipline. Ongoing projects include performing chemoenzymatic syntheses of natural products, investigating transport of molecules across biological membranes, and modulation of transcription factors. Applicants are asked to submit a cover letter that details research experience and interests, a CV, and to provide contact information for three references. All materials should be sent to dassama@stanford.edu.
