Subject: Department of Florida Annual Convention

The Board of Trustees of the Department of Florida, Marine Corps League, today reached a unanimous decision to **CANCEL** the Department of Florida Annual Convention scheduled for June 4-7, 2020.

This decision came after much thought and concern as to the health and welfare of our members, which **must** be our primary concern.

The lack of a timetable from the State of Florida, Brevard County, and the City of Melbourne as to when a gathering such as a convention would be allowed to take place also had to be taken into consideration.

Per the National 2020 Emergency Plan for Elections and Installations all terms of office for all elected officers are extended until new elections are held during the Fall Conference in October. Therefore all newly elected officers will serve a shortened term of office.
