LET’S REFLECT ON OUR LEARNING!

Name______________________                                                                              Class:_______________

What is the name of this unit/topic? ______________________________________________________________

Explain one thing you enjoyed about this unit:  

- Give a detailed explanation of THREE things you learned about in this unit:

THIS IS NOT AN EXPLANATION
I learned gradation to make a realistic 3D nose.

THIS IS A DETAILED EXPLANATION
I learned the skill of gradation. At the beginning of the semester, I could only draw a two-dimensional nose. After practicing values and gradation with a blending stump in my homework, I learned how to make a nose look realistic and three-dimensional with shadows and highlights.

2) I learned about...

- What skills did you learn to USE during this unit? [I learned how to organise my work, I learned to how to listen to others, I learned how to present confidantly...]

I learned how to...

LET’S REFLECT ON OUR LEARNING!

Did I do the best I could do?

- What could **SKILLS** could you improve upon in the next unit? [*I need to communicate more effectively; I must listen to instructions more carefully, I’m going to try and meet deadlines, I will challenge myself to use better sources...*]

**Set yourself a SMART goal for your next unit**

*In the next marking period, I will get at least a C on all my math tests, and at least a B on most of my quizzes and homework assignments.*

But it’s not SMART yet because it has no action plan or benchmarks. Here is a pretty SMART goal:

*In the next marking period, I will take careful notes and review them at least two days before tests and quizzes so that I can ask the teacher questions about what I don’t understand. I will do my math homework before I do things with friends, and when I hand it in, I will ask the teacher about anything I am not sure about. When I get anything wrong, I will make sure to ask the teacher, or one of my classmates how they got the right answer.*
