ABOUT THE ARTIST

A little about Louise ...

Louise has been taking photos across the NT since arriving here from the UK in 2008. She began selling her images as prints at Mindil Beach Markets in 2011.

The Louise Denton Photography business has been constantly expanding over the years to the thriving gallery and online store of today. Louise's stunning images are held in corporate offices, hotels and private collections across Australia and internationally.

"I have learned so much about our local environment. I'm constantly inspired by our skies, wildlife and rugged natural beauty - there is an endless environment to explore.

I feel incredibly lucky to be living in a place I love - the Top End is a photographer's paradise. It's also the perfect base for bushwalkers, campers and nature lovers in general - Darwin and I are a great fit!

I am regularly asked when my favourite time to photograph is, and without a doubt, it is the wet season. I can't pick a favourite place to shoot - I have grown to love it all! Our coastline and national parks offer a limitless canvas, especially in the wet season with its ever-changing light and colour."

Today, Louise manages a small team at her vibrant gallery at the Darwin Waterfront. A range of items are available at the gallery from various small gifts to large centrepieces. Many products are made in-house and frames are custom made to order. Louise is proud to call the Territory home and hopes her images convey its beauty to the world.
