"We've hit the ground running this term, helping bring teletherapy to campus through our new partnership with Uwill, advocating and achieving both a Day of Caring and an NRO extension, and pushing hard for late night dining to be reopened. We've appreciated all of the kind words of encouragement as we aim to be as accessible as possible this year, so please reach out if you have concerns, questions, or want to join DSG! This is our bi-termly newsletter, Sprouts, which will outline what we've been up to and (eventually) introduce you to some of our members. Hope you enjoy learning more and always feel free to reach out!"

"My name is Kiara Ortiz ‘24! I’m from New York City and study Neuroscience and Public Policy. As the West House Senator for the Class of 2024, I advocate to improve mental health infrastructure, increase academic accessibility, and relieve financial barriers for students. As Chief of Staff, my primary goal is not only to continue this work and support our other executives, but also to ensure all students have the opportunity to participate in creating change. I co-chair our Student Life committee, and this fall we are updating our coach voucher program to prioritize students on financial aid. Through our partnership with the Financial Aid Office, we aim to provide at least 100 Boston or New York coach tickets each term to students who demonstrate financial need. Our hope is to continue our work with the college and hopefully institutionalize this program!"
