The Experience

Children's heirloom portraits have been enjoyed for generations, but is somewhat of a lost art.

These portraits are done in-studio on a white background to keep the images looking timeless and it also keeps the focus on the child.

Wardrobe will be included along with some classic accessories that will lend to the timeless look of the portraits. It's so important to capture your children in a way that is timeless, because it is documenting your family's history and legacy. So many people remember portraits like this of their parents and grandparents.

This limited addition event is for both boys and girls and is perfect for children of all ages (6 months- 12 years).

Sessions will last about 10 minutes and are \$175 per child. If booking for multiple children, please book sessions back to back. A group photo of multiple children will also be taken.

Digital images and products are purchased after you view your gallery. There are some special rates for families with multiple children (see A La Carte List).
