Minnesota One-Stop for Communities is a nonprofit organization offering services that help parents navigate public systems.

**Advocating for Communities Since 2012**
Being approached by Child Protective Services can be an emotionally devastating, isolating, and confusing experience.

Minnesota One-Stop for Communities is here to walk the journey with you.

“Having a parent mentor calmed my nerves and kept me focused. My mentor explained to me exactly what would happen in court and they were so right. I am so grateful to have had support.” –Parent Mentee

Our work

Protective Factors
We help families establish healthy environments for their children by using protective factors:
- Knowledge of parenting and of child and youth development
- Parental resilience
- Social connections
- Concrete supports for parents and
- Social and emotional competence of children.

Trusted Ally
We have firsthand experience with the Child Protection System and want to help other parents have a better experience, a positive outcome, and someone to trust and rely on every step of the way.

Our goal is to support parents through reunification or the best possible outcome with their children. We’re a free service and a neutral party established to provide support to you.
