- Up to 400 characters per second
- Ideal for airport applications
- Solution designed for airport counters
- Roll support clipped and attached to the printer
- Excellent paper holding
- Long life capacity ribbon

Tally
DASCOM

Based on the proven quality of the Tally Dascom 1140 the roll holder version is specially designed for roll paper applications that can be found on airports, railways and travel agencies.

The support has been designed to be set up by any user. The user just clips while being firmly fixed and connect the equipotential bonding to the printer chassis.

Made of metal, it will easily withstand rough handling by users and can works with roll up to 2 kilograms (4.4 lbs). When exchanging the paper roll the axle won't be lost as it is fixed to the mechanism.

No additional footprint required as the roll holder is fixed on the printer. The back of the printer can be positioned at the edge of the desk and the roll media will not be affected. Users will be able to move the printer without worrying about the roll support because it is attached to the printer.
