Student/Government Round Table
• Myself and Amina (VP Academic and External) attended a student/government roundtable. These meetings happen a couple times a year where the current government meet with students from all across NS to speak about current student issues and policies. Minister of Labour and Advanced Education Kelly Regan was present for a brief question period.
• The main issues the DSU brought forward were:
  o The need to repeal Regulation #67 (Legislations that prevents those on social assistance from getting further student assistance)
  o The 2016 tuition reset at Dal, and the de-regulation of fees for specific groups of students (International Students, Graduate Students, Professional Programs, and Out-of-Province Students)
  o The Memorandum of Understanding between the provincial government and NS Universities, and the lack of accountability it holds on both sides.
  o Graduate student’s issues: we have the second highest fees in the Country at Dalhousie, with the second weakest labour market, and fees are still deregulated.
  o The need for legislation regarding sexual violence and assault for safer campuses.

Whereas Annual General Meetings are an excellent way for students to review how a year has gone;

And whereas the Dalhousie Student Union holds only one Annual General Meeting a year, and it is at or near the end of the winter semester;

And whereas ‘list of goals or objectives for the coming year’ would indicate that a general meeting would have to be held early in the fall semester;

BE IT RESOLVED the society policy 9(d)(iv) be amended to read:

‘...include an opportunity for the general membership to review a summary of the financial statements of the society, and a presentation of achievements of the society for the previous year.’

Whereas bloated documents are more difficult to access, and therefore keep students outside of the conversations;

And whereas unnecessary clauses cause bloat within documents;

And whereas every organization must always refrain from infringement upon laws, and operate within the Bylaws of the organization from which it comes;

BE IT RESOLVED the society policy 9(i) be deleted.

Bart has withdrawn this motion.

MOTION 2016-08-17: N10

SERVICES

DSAS

- Service

  - There has been a sharp increase in intakes during the first semester of operation as well as the highest number of volunteers the service has seen and they expect the same for next semester. The majority of cases are still academic in nature, however, we are seeing a lot more than previous years, most likely due to our promotional efforts and visibility in the Dal community. So far, we have more than doubled previous years monthly numbers. We have seen quite a lot of cases involving graduate students experiencing sexual harassment from supervisors. We are also talking a lot more cases at other campuses like Kings, Sexton, and Truro. The budget we inherited did not reflect the expanded mandate of DSAS, and

- Lost and had to replace two executive members who resigned due to stress.
• Outreach

  • Academic Integrity workshop will now be taking place in January as part of winter orientation for International Students (thanks to Reza and Mitch for all their work on this) and hopefully incorporated in all future orientations.

  • Raised over $326 and collected 93 journals for Books Beyond Bars

• Policy

  • Has a seat on the Sexual Assault Response Policy Committee and have contributed to the first round of edits.

  • Created an accommodations policy which we aim to deliver to the Department of Engineering following a serious case of lack of accommodations, as well as broadly to the Dal campus.

  • Initiating an open process at the Law School to develop a sexual assault and harassment policy in response to multiple cases of sexual assault, harassment, and gendered violence over the past several years.

UPCOMING

  • All the holiday parties!

Strategic Priority 5.2 Advisory Committee Meeting

- We had an advisory committee update from the 5.2 (Diversity and inclusion) project team, lead by Jasmine Walsh and Norma Williams. I gave feedback in person during the discussion period, and wrote up a feedback document that I submitted electronically to the committee.

ADVOCACY

Tabling

- Amina, Dylan, Rhiannon, and myself have scheduled specific days to table with the DSU street team. I will be tabling at sexton this Wednesday!
- Look out for Tuesday through Thursday on all different campuses and locations!

University Club Accessibility Project

- Met with Dr. Florizone on the issue, to let him know about the motion passed at council. He expressed genuine interest in getting involved in the process. We will be meeting with VP Advancement (Peter Fardy) to talk about a possible fundraising approach for this project.
- Set up a DSU committee to work on this issue, consisting of the E&A office, General Manager (Craig Kennedy), and some executives.
- Currently working to set up the next meeting of this committee, and have tasked specific members to do some research, looking for what reports and audits already exist about accessibility on campus. We will be reviewing these reports at our next meeting, to decide what work still needs to be done to make a case for funding for the project.

SERVICES

Survivor Support Initiatives

- After two strategy sessions, working with Amina, Rhiannon and staff members on the next stages of planning for a sustainable source of funding for survivor support initiatives on campus.
- We hired a student commissioner (Ruby) to help set up and coordinate active listening sessions for students who need support as a temporary replacement for the Phoneline.

Active Listening Training

- Worked with Rhi Rhi (VPI) and several staff members to run a 2-day active listening training specific to train volunteers in active listening for survivors of sexual assault and harassment.
- The training was a huge success with approximately 40 students attending. The training ran Jan 14th and 15th with scenario training (run by myself, Rhiannon, and Mary-Dan) throughout the following week.
• The service will include an option for folks to book active listeners to come to events as a support that people can turn to if need be. We are currently working out the logistics of what it would be like to run a drop in service for in person active listening.

OTHER

-Continuing to examine potential food service models for services in the SUB. This has meant conducting lots of outreach to colleagues and professionals across Canada to try to bring a model that best fits the DSU to Council.

Election Platform:

-Found an election platform that could perform the tasks we need. Continuing to explore other possible providers. I'm aiming to have a platform signed by February 5th.

Accounting Assistant interviews:

-As our accounting assistant unfortunately left just prior to returning from the break. Our interviews with temporary candidates continue as we search for the right fit.

A. Levy Questions

i. Dal Bike Centre Levy

MOTION 2017-02-08: N02

BE IT RESOLVED THAT Dal Bike Centre Levy Question be amended to switch the order, to move the question below the “whereas” clauses.

Moved: Purcell Seconded: Makohoniuk

MOTION 2017-02-08: N02 CARRIED

MOTION 2017-02-08: N03
Whereas an increase in the levy funding would allow the Dal Bike Society to increase opening times and programming of the Dal Bike Centre which provides free bike rentals and repairs for students.

Whereas the Dal Bike Centre is used significantly by summer students.

Whereas the Dal Bike Centre has been in operation since 2009 as a joint project of the Dalhousie Office of Sustainability and the Dalhousie Bike Society. In 2016, operations of the Dal Bike Centre were handed solely to the Dalhousie Bike Society, thus the levy will allow the student society to hire a staff member to manage the Dal Bike Centre.

Do you support increasing the levy for the Dal Bike Society from $0.50 per semester to $1.00 per semester for full-time students and part time students pay $0.50 per semester? This applies only to the Halifax campuses and includes the summer semester.

BE IT RESOLVED THAT the Dal Bike Centre Levy Question be approved.

Moved: Reid Seconded: Makohoniuk

MOTION 2017-02-08: N03 CARRIED

ii. Loaded Ladle Levy

MOTION 2017-02-08: N04

BE IT RESOLVED THAT The Loaded Ladle Question be amended to switch the order, to move the question below the “whereas” clauses.

Moved: Makohoniuk Seconded: Reid

MOTION 2017-02-08: N04 CARRIED

MOTION 2017-02-08: N05

Whereas The Loaded Ladle has not increased its levy since 2012.

Whereas an increase in levy funding would allow The Loaded Ladle to increase programming, community (solidarity) servings, and regular servings to 4 days per week.

Whereas this levy increase will support growth of The Loaded Ladle until 2020.
Do you support increasing the levy for the Loaded Ladle from $3 per semester to $4.50 per semester for full-time Dalhousie students. This question applies only to the Halifax campuses and registered full-time students.

**BE IT RESOLVED THAT** The Loaded Ladle Levy Question be approved.

**Moved:** Reid **Seconded:** Makohoniuk

**MOTION 2017-02-08: N05 CARRIED**

**iii. DSU Survivor Support Levy**

**MOTION 2017-02-08: N06**

Whereas one-in-five women experience sexual assault while attending a postsecondary institution; and

Whereas the Dalhousie Student Union recognizes that dedicated, long-term support for survivors must be accompanied by education and advocacy to ensure safer and more supportive campuses for all members of the Dalhousie community; and

Whereas Dalhousie Student Union currently provides support and advocacy for survivors of sexual assault, violence, and harassment without core funding, which has proved unsustainable; and

Whereas a levy would allow the DSU to establish a robust in-house support program dedicated to service delivery, education and advocacy addressing sexual assault, violence, and harassment;

Do you support instituting a fee of $2.50 per semester for full-time students and $1.50 per semester for part-time students to fund a robust DSU-operated support centre dedicated to service delivery, education and advocacy addressing sexual assault, violence, and harassment? This question applies only to the Halifax campuses.

**BE IT RESOLVED THAT** the DSU Survivor Support Levy Question be approved.

**Moved:** Keddy **Seconded:** Purcell

MOTION 2017-02-08: N01

WHEREAS the VPFO and the DSU Council have consulted with Chartwells regarding their long-term food services offer,

BE IT RESOLVED THAT the DSU shall move toward an independent food service operation without a third party provider.

Moved: Ryan  Seconded: George-Jim

George-Jim said that she heard from many students on campus, many social activists and those who work with food services at Dal were for the motion, except some were against the motion because they were unsure about going independent and the financial stability of this decision.

Tremblay said that he is unsure about going with the option because Chartwells presented a very stable financial source and made some very good financial offers to us, which are guaranteed, whereas going independent the union may not get as much money.

Reid motivated for this option. Because of her DSU experience, she says that there is dissatisfaction with Chartwells catering or how they function. She says lack of flexibility is a concern, ethics is a concern, and being part of a corporation like them we may not get the flexibility we want. She said that if we want to go independent, there’s a lot of concern with insurance and having a budget that can be balanced, but consultations after this can let us know what students want to see as franchises and hopefully will be successful. She also said that this independent model allows a balance of keeping ethics and we can still keep things like Tim Hortons – she said that it’s not a drastic move to go to this model, it’s not guaranteed, but it can also bring in a lot of money a year.

Goodwin motivated against. He said that we can open up to other companies this way. He said that bring in in small franchises has already been talked about, but
this will be a very difficult procedure to get people into the atrium because it has not been a proven food model in the past. He also talked about the prison system aspect – and said that it’s the provincial government mandate for who runs the prison food, so provinces can provide food to prisons, and said that many companies even Loblaws have food issues so he doesn’t think that this is a huge impact because somebody will be doing it either way.

Douglas shared the National Student Food Charter brief context summary document with Council.

**MOTION 2017-02-08: N02**

**BE IT RESOLVED THAT** council take a 5 minute recess to read the National Student Food Charter summary document.

**Moved:** Douglas  **Seconded:** Makohoniuk

**MOTION 2017-02-08: N02 CARRIED**

Douglas said it’s important to have a culturally competent and socially just food service, and claims that these are points that Chartwells fails on. She said that lack of culturally competent food options in prisons, as the Women’s Community Rep, she will be voting in favour of going independent because she has to stand with the constituents who are most affected and most at risk – she says these are the indigenous women in Canada who have family members that face disproportionate rates of incarceration in this country.

Hughes said that she is motivating against the motion, and said that her constituency is very divided. She said not to go through with this because all the concerns brought up with issues like catering, cultural societies not having food options respected - by going with an independent food model, we state that we have to go with another large catering company. She said this wouldn’t be addressed by an independent food model because large catering companies will be similar to Chartwells. She said the main issue and question she is asking is will these issues like ethics and cultural issues be addressed when taking on this risk of going independent? She also mentioned that Tim Hortons also has human rights violations.

Abawayj said that she is voting for the motion. She read a letter from someone concerned with Chartwells. She said the decision must be more about than the food model, and has to look at whether it will respect diverse cultures.

Keddy motivated against, and wanted to remind folks that it’s about the situation we’re in and not ideologies. She said she can’t let ideologies sway her even though there’s a lot of risk around this, it will hurt the union. She also reminded council that we’re not in a strict binding contract - if we vote against, we can have executives come out more often from other companies, to give us more options. She said that she is all for local businesses but she said this is not realistic, going
independent will put a strain on our staff. Staff are already overworked because of ambitions of the union, and she said that we don’t have the capacity to go independent in general. She also said that we’ll have to give up something else like even advocacy work. She reminded us that it is important to consider all students, not only those who have vocalized.

David says he understands the concerns of ethics and going with a big company, but the main concept is the students. There’s no better way to bring service to students he said. He said that the job of this company is the food, Chartwells is the most cost effective option available. Students will potentially have to pay for more expensive food and they may not be able to afford that. He said it’s good to think of the issues with big companies, but denying access to a big majority of students because it’ll get too costly is a big reason to go against going independent. He said if the company agrees that more diversity will bring more food, they’ll do it, so we can play on the contract and tell them that we want diversity.

Soroka shared his experience of University of Regina, and said when they could bring in a franchise of their choice they were trying to fill one space, and it was a disaster. He said: “Everything we do, turning our union from an advocacy union to a service union, we will leave a lot of money on the table”. He said people will do excellent consultation if we do go with Chartwells. He says if we go with that contract, if they do not meet our needs and wants, we still have the option to go independent if after consultation they don’t offer what our students need. He said: “I am against this motion, and I think it’s important to keep in mind what we leave behind by completely closing off the door to 3rd party contracting.”

El-Satouhy said international students and cultural societies don’t like Chartwells and going self-operated is “a very risky idea”. She said yes, they don’t like the food in Chartwells, but it’s very cheap, it’s the cheapest they can get, and they don’t think that the DSU now is capable of pulling something like this. She also said that not only is it risky, it’s very big, we don’t know how it’ll look, who will operate it, how it’ll work with events, who will be the 3rd food outlet downstairs – a lot of uncertainty. She said for us to take a decision like this is risky, and we should work with Chartwells on a better contract, instead of going independent. We can start with 3 years, but we can work with a better contract, they said a lot of promises, we can hold them accountable and have everything written down in a well worded contract that will hold them accountable to not providing the services we need. She said: “We don’t want to screw over next year’s council, so I am against this.”

Prosper said he is motivating for, but this decision is beyond the executive. He said Craig has been here for over 30 years and he says to go with the independent model, and says that Craig has been here the longest from what he has heard and has valuable knowledge. Prosper said: “I disagree with the fact that the atrium wouldn’t be successful; prior to the installation of Tims, that was a hub for cultural foods in the 80s and 90s. It has been successful in the past. In the AGM of 2012 of this union the council decided not go independent, and the
following council put forward a motion to abide by the Charter”. Prosper said that going with Chartwell’s won’t be affordable, they’ll probably be increasing all their prices to make more money.

Makohoniuk said that outside catering will cost more if we go independent, tickets for events will go up, that’s inaccessible. She said yes Chartwells isn’t great. She said: “I don’t believe we can provide better food services, prices or options to students if we go independent. If it goes south, we will have to be taking services off, and we will have less money to do things.” She said she wants the next executive to prosper and go independent, but realistically it will be a huge risk. She said taking a moral stance is good and she believes in it, but she doesn’t think it’s a sound decision financially.

Goodwin talked about the locally sourced food option and said it is harder to sign with franchises to source food locally than will be with Chartwells. Also, with catering, he said that they screwed up in the past and are willing to do tasting, and to bring chefs from other locations. He said they even offered to bring down prices, and said it’s cheaper with Chartwells. He also said: “Even if we sign a contract with Chartwells, we can notify them 90 days out of the contract and go independent”.

George-Jim said that we represent 18000 students. She said, “Sitting around this table we have privilege. There are not many people of colour or people who are international here.” She said she wanted council to consider people who aren’t able to be represented, as we don’t get to hear them everyday. She said money is obviously a large issue, but if you believe in a lot of social justice issues and you’re against this, you’re not following through what can be represented here. George-Jim said it’s a cop out and thinks that the union can afford to maybe run a deficit for the upcoming year to figure something out. She said, “Diversity is a big issue”. She said there’s not a lot we can hold Chartwells accountable for, and that many societies avoid catering on campus because there’s no culturally competent food. She said that by voting this down, we’re not giving students another option. She said, “We can readjust the budget, see where services can be cut, the students that reach out are important and those are the students that care and say they don’t want this.”

Douglas said that other campuses in Canada have student-run food services. She said, “Healthy options are better in those cases, on this campus we don’t have that.” She said if you look at the market and loaded ladle if they can work to get cheap healthy food there, we can have an opportunity to get cheap healthy food if we go independent. She said we can try opening up a convenience store or a business to provide us with essentials in the atrium.

Soroka said that voting down this option means keep our options open with food service operators, but going for with it means we can’t keep our options open with large food service operators. He said that we can’t run deficits, staff won’t be able to focus on issues on other campuses like Sexton. He also talked about the transfer of wealth to the Studley campus. He said we have tried food services in
many ways, but we’ve failed to achieve profitability, and we can’t stop looking at
the bottom line of the budget because we have to ensure that future generations
of students aren’t paying off our deficit.

Kilgour said that a constituent brought up the idea of a convenience store and
they seemed for that idea, because the Guardian is extremely overpriced, a lot of
people on residence would certainly use the convenience store a lot.

El-Satouhy said that a lot of things people have brought today can be answered
with a lot of things that already exist. She mentioned that food bank exists, is
underused, and international students rely on it heavily. She said that we can
work hard on it and that can be a free convenience store. She said, “We’re not
using these services, it’s already there, and we want to bring in new stuff, but
things we have we’re not taking care of, and it won’t make sense to international
students.” She recommended for students to use the community kitchen, and
said these services in the building we’re not utilizing and we’re supposed to be
responsible for them. She also said that Soroka was right about students on
Sexton going to Studley for food, international students there agree and they
make up the majority of Sexton. Grad students stuck on sexton from 9-5 and she
says this is a struggle.

Ryan says he is voting against this motion. He said, “I said I was uncomfortable
with Chartwells being part of our service, and that any structure including
Chartwells can’t be flexible to meet our needs. I said these things and I worked
with staff for the last 10 months on this, and Chartwells doesn’t meet the needs
perfectly, but to be looking at every option we could have, this option will meet
the needs best. We can’t do this responsibly and better meet the needs of our
students than we already are.”

Student Services Meet Ups

• Continuing bi-weekly meetings with the Student Services team to connect on student issues, and important current points.

KATHLEEN REID
REPORT TO COUNCIL
March 1st 2017 to March 19th 2017

ADVOCACY
Sexton Spaces
• Josh and I are working on getting summer service hours on sexton extended for this year. We are also helping some planning students in attempting to get a communication board up for Architecture and Planning students.

Tabling
• Amina, Dylan, Rhiannon, and myself have scheduled specific days to table with the DSU street team. I will be tabling at sexton this Wednesday!
• Look out for Tuesday through Thursday on all different campuses and locations!

University Club Accessibility Project
• Had a meeting with Rhiannon and Michael (DSU E&A) to look into and compare current policies that exist at different universities.
• Brought this up at the NDP during Lobby Week as the NDP has expressed wanting to amend changes to the proposed accessibility bill that is already in house. The NDP is very receptive to changing the policy to include implementing accessibility standards on buildings that already exist.

Past items on this issue:
• Met with Dr. Florizone on the issue, to let him know about the motion passed at council. He expressed genuine interest in getting involved in the process. We will be meeting with VP Advancement (Peter Fardy) to talk about a possible fundraising approach for this project.
• Set up a DSU committee to work on this issue, consisting of the E&A office, General Manager (Craig Kennedy), and some executives.
• Currently working to set up the next meeting of this committee, and have tasked specific members to do some research, looking for what reports and audits already exist about accessibility on campus. We will be reviewing these reports at our next meeting, to decide what work still needs to be done to make a case for funding for the project.

Survivor Support
• Rhiannon and I successfully ran a Levy to create a DSU Survivor Support Centre!
