

Late last week, Congress passed, and the President signed the third bill in response to COVID-19. Unfortunately, this economic stimulus bill did not include relief for multiemployer pension funds.

Thank you to everyone who made calls and sent emails to their elected officials urging them to take action on this pressing crisis facing nearly 400,000 Central States participants and more than 1.4 million participants across the country. There is now clearly even greater urgency as a result of the severe COVID-19 economic downturn.

We are actively encouraging Congress to make this an urgent priority and move forward with legislation, either on its own or as part of a new COVID-19 bill. We will keep you updated at key times when it is especially important to make your voices heard.

As always, we will share the latest news and information at www.voicesforpensionsecurity.com.
