"Windowed Worlds" program invites building owners to add light, color, and creativity to their vacant storefronts within the downtown district by partnering with Town Green District to commission artists to transform empty storefronts into mini worlds of wonder.

The program’s core purpose is to:
1. Attract positive attention to ground floor spaces that are empty
2. Elevate creativity and support the creative economy in Downtown
3. Improve safety and walkability at night by illuminating vacant storefronts

Property Owner’s responsibility:
- Supply electricity for display lighting
- $500 artist stipend per windowed world
- $350 of art supplies per windowed world

Town Green District responsibility:
- Coordinate and pay for professional window cleaning service
- Coordinate and pay for the construction and install of display wooden backdrops
- Act as liaison between Property Owner and Artist
- Provide Certificate of Liability

"I'm really happy with our window display. It makes our space feel full, even though it is an empty storefront. The whole process was seamless and easy. It required little effort from me."

-- Julie Bernblum, property owner of 770 Chapel
