Every election presents a unique opportunity for college students to make their voice heard— that is especially true in this year's local and national elections. MSUvote is committed to registering Spartans to vote, educating students on the issues, and ensuring that Spartans are participating in the election process.

As some of the most diverse individuals in the country, the voices of college students will have a significant outcome on elections on all levels this year. Your voice does matter. Your vote does count. Get out and use it!
New Student WebChat Feature

The MSUvote Campus Coalition has implemented a new WebChat feature for the MSUvote website. This feature will be run by student volunteers, and will be a safe and welcoming space for other students to ask questions about voter registration, voting processes, ballot information, and more! All student volunteers are provided resource kits to ensure thorough, non-partisan assistance for every student they come in contact with.

Check the MSUvote.msu.edu website for information about the hours that the live chat is staffed.

MESSAGES FROM PRESIDENT STANLEY
