

Alaska Department of Natural Resources Update

The Alaska Support Industry Alliance

Presented by Corri Feige
Commissioner, Department of Natural Resources

January 10, 2019

STATE OF ALASKA

- LAND BASE & OWNERSHIP -

Land Base

- 586,412 sq. miles—more than twice the size of Texas
- Larger than all but 18 sovereign nations
- More coastline than all other 49 states combined
- More than 3 million lakes; half of world's glaciers

Land Ownership

- *Federal Land: (~60.3%)* more than 200 million acres
- *State Land: (~27.4%)* Approx. 100 million acres of uplands
- *Native Corporation Land: (~12%)* 44 million acres
- *Private: (<1%)* Approx. 1 million acres

STATE OF ALASKA

- OIL & GAS RESOURCE POTENTIAL -

North Slope

- More undiscovered, potentially recoverable oil than any other Arctic nation
 - **OIL:** Est. 40 billion barrels of conventional oil
 - **GAS:** Est. over 200 trillion cubic feet of conventional natural gas
- Untapped unconventional resource potential, including tens of billions of barrels of heavy oil, shale oil, and viscous oil, and hundreds of trillions of cubic feet of shale gas, tight gas, and gas hydrates

Cook Inlet

- Significant undiscovered resources remain
 - 19 trillion cubic feet of natural gas
 - 600 million barrels of oil
 - 46 million barrels of natural gas liquids

Sources: USGS & BOEM

Compared to most basins, Alaska is relatively underexplored, with 500 exploration wells on the North Slope, compared to Wyoming's 19,000.

STATE OF ALASKA

- OIL & GAS OUTLOOK -

2018 Fall Lease Sale brought the 3rd highest amount of winning bids since 1998

Total Bonus Bid:
\$29,234,028.10

Highest Bid Per
Acre: **\$586.00**

Total Leased Acres:
243,950

STATE OF ALASKA

- OIL & GAS OUTLOOK -

North Slope Oil and Gas Activity

State of Alaska, Department of Natural Resources, Division of Oil and Gas, as of October 2018

Division of Oil and Gas
Additional tax credit datasets have recently been publicly released to Alaska Geologic Materials Center (Umiat 2D/3D, Purviala South 3D, Ilkikpuk River 2D, and North Shore 3D). Datasets from two more surveys and 32 wells to be released in November.

Oil Search
Planning to drill Pikka B and C appraisal wells at Pikka Unit this Winter from ice roads and ice pads. Pikka Nanushuk development is currently in pre-Front-End Engineering Design stage. Final Investment Decision expected in mid-2020. Targeting first oil in 2023.

Caelus
Received approval to expand Nuiqsut, Kugaruk, and Torok PAs at Oooguruk Unit.

Eni
May resume development drilling at Nikaitchuk Unit this fall. Planning to drill up to three new wells and add laterals to as many as 8 existing single lateral wells at Spy Island.

Hilcorp
Plan to drill 50-70 wells from Moose pad at Milne Point field. Drilling to start late 2018 and first production expected in November. Peak production anticipated to be 16,000 BOPD in 2020 with 30-50 million barrels ultimately recovered.

BOEM
Issued final EIS for Hilcorp's Liberty project to develop field from gravel island five miles offshore and utilize buried subsea pipe-in-pipe pipeline.

ConocoPhillips
Planning pad expansions at CRU in 2019 to add 10 more well slots at CD5 and more slots at CD2 to accommodate 32 wells at Fiord West. May drill late 2018 CD4-85 exploratory well into Narwhal Nanushuk trend just west of Putu 2 from existing CD4 pad in southern CRU.

ConocoPhillips
Achieved first oil from GMT1 in October; expect peak production of 25,000-30,000 BOPD from Jurassic Alpine C Lookout reservoir.
Planning to drill 4-6 exploration wells in Bear Tooth Unit Willow trend during early 2019.

BLM
Published final Supplemental EIS for GMT2 Rendezvous field development. Preferred alternative is ConocoPhillips' plan to build 14-acre drill pad capable of up to 48 wells as a satellite of CRU Alpine Processing Facility.

Glacier Oil and Gas
Starfish exploration well B1-07 on production since May; September flow rate averaged 1,148 BOPD.

Elixir Petroleum
Announced purchase of 35,423 acres in NPRA north of Umiat from Paul Craig.

Division of Oil and Gas
Bid opening for fall lease sales for Beaufort Sea, North Slope, and North Slope Foothills Area-wide sales and three sales of blocks of leases: Gwydyr Bay, Harrison Bay, and Storms scheduled for November 15 at 9 AM. Combining unleased acreage backed by publicly available information to offer three blocks of leases in fall oil and gas lease sales.

88 Energy
Ended production testing of HRZ shale at Icewine 2 and suspended well with plans to farm out interest.

Brooks Range
Proposing to produce Mustang field using early production facility.

ConocoPhillips
Planning expansion of Eastern NEWS with second phase of development. Expected to come online in 2023.
Planning to drill three new wells at KRU Drill Site 2M.
Planning to drill Caim prospect (Seabee Fm) east of Tarn field from DS 2S in late 2018.

BP Exploration
2018 POD called for 7 wells in Prudhoe's Flow Station 2 region. Planning to conduct field-wide 3D seismic survey. Three additional wells possible at Lisburne PA. Planning for major gas sale in accordance with AGDC progress on AKLNG project.

Eni
Acquired Caelus' 350,000 acre onshore exploration fairway between Prudhoe Bay and Point Thomson.

BLM
Received application from SAE Exploration, ASRC, and Kaktovik Inupiat Corp to conduct 3D seismic survey in 1002 area of Arctic National Wildlife Refuge. Proposed Marsh Creek 3D survey would take two winter seasons to complete.

STATE OF ALASKA

- OIL & GAS OUTLOOK -

Cook Inlet Oil and Gas Activity

State of Alaska, Department of Natural Resources, Division of Oil and Gas, as of October 2018

Division of Oil and Gas
 Issued call for substantial new information for Spring 2019 Alaska Peninsula Area-wide oil and gas lease sale. Deadline for receiving information is October 26, 2018. Issued preliminary best interest finding for proposed Cook Inlet Area-wide oil and gas lease sales, 2019-2028.

Visit
http://list.state.ak.us/mailman/listinfo/DOG_Leasing to subscribe to leasing announcements.

Division of Oil and Gas
 Soliciting Statewide Nominations of Lands with geothermal resources for potential future disposal.

Amaroq Resources (Previously Aurora Exploration)
 Nicolai Creek Unit 2018 plan included three well cleanouts and drilling NCU 12 well targeting Beluga and Upper Tyonek gas sands. Anticipated negotiating purchase of Apache's 3D seismic shot in 2012 to evaluate future exploration targets.

Hilcorp
 Planning to sidetrack a well from the Monopod platform in the Trading Bay field in an attempt to restore unit production. Sidetrack will target Tyonek G and Hemlock reservoirs.

Glacier Oil and Gas
 Requested that the state contract Redoubt Unit and form new participating area, South Stepout.

Doyon-CIRI
 Totshaket 1 drilled this summer; encountered several gas shows but did not find commercial quantities of oil or gas.

Division of Oil and Gas
 Approved exploration license application in Houston-Willow area to Samuel Cade and Daniel Donkel.

Furie
 Completed KLU A-1 development well in Corsair block, with initial gas production from lower and middle Sterling zones. Drilled the KLU A-4 development well into Tyonek to evaluate identified 3D amplitude targets. Added perforations to KLU 3 at the Beluga interval. Contracted new technical team to evaluate previously acquired 3D seismic data and propose exploratory drilling targets over next several years. May drill one new development well in 2019 to stratigraphic equivalent of Sterling flow tested zones and add perforations to KLU A-2A and 3.

Hilcorp
 Evaluating well work opportunities and maintaining gas production from Beluga Upper Tyonek Formations at Cannery Loop Unit. Production anticipated to remain close to 10 MMSCF/D through July 2019.

STATE OF ALASKA

- OIL & GAS OUTLOOK -

- 2019 is expected to be the busiest year in the last 10 years for exploration and production rig activity.
- Pikka, Mustang, and Placer finds demonstrate great potential.
- New data suggests enormous potential in Nanushuk and Torok formations.
- Legacy fields including Prudhoe and Kuparuk have exceeded internal expectations through infield work.
- Smaller companies, like Caelus, Great Bear & Armstrong, are engaging in exploration plans that will help maximize TAPS throughput into the future.
- New players, like Oil Search, indicate industry acknowledgment of large, viable fields that were unknown.
- Continuous work with North Slope communities, presidential administration, and Congressional delegation on Arctic energy policy and decision making that support responsible development (ANWR Coastal Plain, OCS, NPR-A)

STATE OF ALASKA

- 2017 MINERAL PRODUCTION -

5 major lode mines

1 coal mine

~ 230 placer Au mines

~ 52 active exploration projects

	2017 Production
Zinc	649,889 tons
Lead	140,683 tons
Gold	>818,336 ounces
Silver	16 million ounces
Coal	873,000 tons

STATE OF ALASKA

- AKTIGIRUQ ZN-PB-AG [TECK]-

Sediment-hosted massive sulfide deposit

Anarraaq resource:

-Inferred: 26 M tonnes @ 13.8% Zn, 4.3% Pb, 84.3 g/T Ag

2018 Aktigiruaq program:

-Drilling program

-Ore body is 400 to 1,000 m below surface

-2016 drilling encountered 54.6 m @ 16.8% Zn, 3.63% Pb (DDH1737)

STATE OF ALASKA

- ARCTIC VMS (TRILOGY METALS / SOUTH32 LIMITED)-

New PFS:

- Ave. annual payable production: >159 M lbs. Cu, 199 M lbs. Zn, 33 M lbs. Pb, 30,600 oz. Au, & 3.3 M oz. Ag
- 12-year mine life
- Estimated pre-tax & after-tax payback of 2 years
- Converted indicated mineral resources to probable reserves
- Pre-tax 38.0% IRR; \$1,935 million NPV at 8%

Resource: (based on 152 DDH)

Oct 2017	Million Tonnes	Cu %	Zn %	Pb %	Au g/T	Ag g/T
Indicated	36	3.07	4.23	0.73	0.63	47.6
Inferred	3.5	1.71	2.72	0.6	0.36	28.7
Total	39.5	2.95	4.09	0.73	0.61	45.9

2018 program (US\$6.7 million):

- Completed ore-sorting program
- Geotechnical & hydrological studies
- Preparing for feasibility study & starting permitting in 2019
- Working with AIEDA to advance the Ambler Mining District Industrial Access Road Project; BLM working on EIS.

STATE OF ALASKA

- BORNITE CARBONATE-HOSTED CU-CO (TRILOGY METALS / SOUTH32 LIMITED)-

2018 program (US\$10.8 M):

- 12 holes; total 10,123 m of infill & off-set drilling
- Seismic survey
- Metallurgical testing: produce Cu concentrates of 24% - 33% Cu; & no deleterious metals

2019 program: Anticipated ~US\$9.2 million budget

	Million Tonnes	Cu %	Co %
Indicated	40.5	1.02	0.017
Inferred	141.9	1.74	0.025
Total	182.4	1.24	0.019

Contained metal: 77 M lbs. Co & 5.45 B lbs. Cu

STATE OF ALASKA

- DGGs MAPPING TANACROSS QUADRANGLE PORPHYRY DISTRICT-

Taurus Porphyry Cu-Mo-Au Deposit

Unofficial resource: 75.2 M tons @ 0.275% Cu, 0.032 Mo, 0.166 g/T Au

Notable intercepts (2008) East Taurus:

- 772 feet of 0.309% Cu, 0.036% Mo, 0.245 g/T Au
- 179 feet of 0.258% Cu, 0.026% Mo, 0.149 g/T Au

STATE OF ALASKA

- GRAPHITE CREEK (GRAPHITE ONE RESOURCES) -

USA's largest, large-flake graphite deposit

2018 Program:

- 6 holes, 800 m of in-fill drilling
- Additional metallurgical testing
- Alternative access routes
- Initiate environmental surveys
- Collect data for future PFS

2017 PEA:

- Open-pit: 1.11 M tonnes graphite-bearing material/year
- 40-year mine life
- 41,850 tonnes of high-grade coated spherical graphite/year for lithium-ion battery applications
- 13,500 tonnes of refined, sub-20-micron graphite powder/year for various end-uses.

Time-Domain Electromagnetic Survey
(red=conductive graphitic units)

6% cutoff	Million Tonnes	Cg %
Indicated	10.3	7.2
Inferred	71.2	7.0
Total	81.5	7.0
