Presenting the new AquaClimb Sport – a refreshing approach to physical training.

AquaClimb Sport is a revolutionary aquatic concept. It provides maximum height with moderate depth requirements and combines the fun of the original AquaClimb with serious physical training and challenge. The concept unites adults, athletes and children in one line at the pool deck, equally eager to take their turn on AquaClimb Sport.

- Physical training
- Aquatic classes
- Competition
- Adult recreation
- Play

- Quality – Made in the USA from highest quality stainless steel and Lexan climbing surface.
- Fun – Up to 19.7 feet (6 meters) climbing height.
- Diverse - Suits all ages 8+
- Fitness – A great workout for the whole body
- Challenging - 4 difficulty levels
- Ease of operations – No climbing gear needed
- Compact – Does not require any space on the pool deck

**Operations**

- Mounted in swimming pools with a water depth of 11.5 feet or more.
- Retrofitting is possible for pools of different shapes and styles.
- Can be positioned anywhere without any loss of daylight.
- The steel frame may be coated with the color of your choice*.
- Does not take up deck space or encroach upon emergency exits

*The standard colors are metallic steel, gray and blue. Other colors available at separate charge.

**Activity**

- Four color-coded climbing routes, varying in difficulty levels.
- The activity is suitable for all users ages 8 and up.
- Great recreation and exercise for kids and adults alike.

**Quality and Design**

- Made from highest quality stainless steel and Lexan.
- Designed especially for the high requirements of water parks’ architecture.
- Design distinguished at the Steel-Innovation Prize 2009.
