

AMERICAN STAR WANDS

Lesson of the Day:

Each of you has the power to make our country a better place, and you don't even need to have a magic wand! Just do your best to be kind and to take care of others. But a wand wouldn't hurt!

Materials:

- Red felt
- White felt
- Blue felt
- Ribbon
- Sticks
- Glue
- Additional decorations (glitter glue, sequins)

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students cut out two large, two medium, and two small stars from felt. Glue the small star inside the medium and the medium inside the large.
3. Have students tie a ribbon around the stick.
4. Have students glue the large stars together around the stick, with the layered side facing out.
5. Allow time for students to add additional decorations if they want.
