

BUTTERFLY AND RECTANGLE FLAGS

Lesson of the Day:

Decorate and make things beautiful! It makes people happy to see wonderful places that are clean and fun. Some people like colorful decorations, some people like things clean and white, and yet others like things to be dark or all black. Even though everyone likes their things decorated differently, with a classroom, having lots of color is fun. Let's decorate ours!

Materials:

- Colorful origami paper
- Skewers/sticks
- Yarn
- Scissors
- Glue stick

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students fold their colorful paper in half or quarters. Then have them cut out shapes, like with a paper snowflake. When they open it up it should have a beautiful pattern!
3. Have them wrap one end around the skewer, putting a stripe of glue stick on the edge they're wrapping.
4. Have them press the glued edge against the paper they're wrapping it against.
5. Let them make as many as they want! Decorate your room and make it colorful!
