

# PEOPLE IN RED

## Lesson of the Day:

**NATIONAL WEAR RED DAY**  
Everybody likes to wear different things in different colors. Today may be National Wear Red Day, but even when everyone wears the same color you can still show your individuality! Don't forget to respect the individuality of others- never tease someone for who they are and what they like!

## Materials:

- Foam/Cardboard people
- Variety of red fabric
- Glue

- Markers
- Scissors
- Yarn

## Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students cut out clothing for their people. It's helpful to trace the people against the fabric so that the clothing is the right size.
3. Have students use cutouts in various colors or even body shapes if possible. They can make a cutout of themselves or one of someone totally different from them.
4. Have them add details to the face, or hair.
