

POPSICLE STICK FLOWER POTS

Lesson of the Day:

Plant seeds of kindness and love everywhere you go! When you only plant kindness, the flowers that bloom around you will be beautiful and make the world a better place. If we plant mean seeds or seeds of hate, the flowers that grow will not only be ugly, but they will poison the beautiful flowers around them.

Materials:

- Popsicle sticks
- Paper
- Sequins
- Pots
- Balled up paper
- Stones

Instructions:

1. Discuss the lesson of the day with your students. Talk about what it means to them.
2. Have students color the popsicle sticks green, in many different shades if they want.
3. Have students cut out paper in the shape of flowers and glue it to the end of the popsicle sticks.
4. Have them add sequins as the center of the flowers.
5. Once the glue is dry, “plant” them in pots filled with small stones or balled up paper if desired. Students can even paint the pots if desired.
