Meeting Updates

Hello Colleagues,

The 2019 Radiocarbon and Archaeology Meeting is quickly approaching. We want to offer updates concerning presentation formats, hotels, and the Student Presentation Awards.

Student Presentation Awards

We are happy to announce that we will be hosting two student presentation awards at the 2019 Radiocarbon and Archaeology meeting. Please see eligibility requirements below. While all eligible students will be considered, eligible students should contact radiocarbon@uga.edu to make sure that they are included for consideration.

The Society for Archaeological Sciences is sponsoring The Society for Archaeological Sciences Student Researcher Award presented at the 9th International Symposium on Radiocarbon & Archaeology.

This prestigious award acknowledges innovative student contributions to archaeological research through the use of scientific methods and has enhanced the careers of prominent young scholars and professionals for more than a decade. The prize consists of $100 US for the best student presentation, either oral or poster. Eligible student presentations will be judged by the conference scientific committee on the basis of scientific merit, impact on the
field, originality, and presentation skills. The award recipient will be announced during the closing session and will be featured on the SAS website and the SAS Bulletin.

Eligibility:

Student is registered to attend the 9th International Symposium on Radiocarbon & Archaeology
Student is first or sole author of abstract.
If co-authored, the student is the presenter.

The Southeast Archaeology Foundation will sponsor a $100 prize for the best presentation to a graduate or undergraduate student in acknowledgement of outstanding work by a student who is either enrolled in an academic institution within the southeastern United States or is presenting on a topic related to the archaeology of the southeastern United States from any academic institution. Eligible student presentations will be judged by the conference scientific committee on the basis of scientific merit, impact on the field, originality, and presentation skills. The award recipient will be announced during the closing session. The winner will be featured on the SEAF website.

Eligibility:

Student is registered to attend the 9th International Symposium on Radiocarbon & Archaeology
Student is presenting research on southeastern archaeology; or students is enrolled in an academic program within the southeastern US.
Student is first or sole author of abstract.
If co-authored, the student is the presenter.
Hotel Block Rates Ending Soon

The room block rates for all of our partner hotels have been extended to April 26th! After that time rates are likely to increase. To explore hotel options and to book your room please visit our Accommodations page. By following the links provided, you will gain access to the Meeting Block Rates.

Presentation Formats

A quick reminder to all of our presenters:

**Oral presentations** will be 15 minutes long with an additional 5 minutes for questions. All audio/visual equipment will be provided and presenters are expected to provide meeting facilitators with a copy of their presentation in PowerPoint format before the start of their session.

**Poster presentations** will be held in 2 hour blocks toward the end of the day on Tuesday and Thursday. Presenters are strongly encouraged to remain by their posters during their presentation time. However, we encourage presenters to hang their posters earlier on the day they are presenting. The poster rooms will open at 8am each day. All posters must be in portrait orientation with a width no greater than 36 inches (91 cm) and a height no greater than 48 inches (122 cm). The hardware needed to hang your posters will be provided.

These requirements can also be found here.

Please find the time for your session in the preliminary schedule here. The exact time of each presentation will be made available soon.
Newsletter

We are happy to say that newsletter interest is growing, and we are doing our best to add all interested parties to the list. To assist with making this a more comprehensive mailing list, please direct your friends and colleagues to radiocarbonandarchaeology2019.com where they can quickly join the mailing list via the form at the bottom of any page.

Sincerely,
The Radiocarbon and Archaeology team
