Covenant House Missouri COVID-19 Update

Dear Covenant House Missouri Community,

I hope this message finds you and your loved ones safe and healthy and that you are finding sources of comfort and strength in these unfamiliar times. We think of our Covenant Community often and send thoughts and prayers your way.

The care and concern you continue to show our resilient youth and the awesome team that is supporting them is truly moving. So many of you have shown your love with thank you cards in the mail, Amazon wish list packages, homemade masks, monetary donations, phone calls and e-mails. It means a lot to our family here to know that you are with us and pulling for us to all come out of this healthy and together.

Our Covenant House Missouri team is taking all the precautions we can to ensure our essential services continue in the safest way possible. We have thirty-six young people with us each night who we are providing safety, shelter and sanctuary to during the pandemic. Our team shows up around the clock each day to provide love, assurance and guidance to the young people living here. As of today, no youth or staff at Covenant House have tested positive for COVID-19. We know the weeks ahead will continue to challenge us. If the health status changes for one of our Covenant House family members, we are prepared and we will ask for your prayers.

We will continue to stay in touch with you to let you know how we are, and we encourage you to do the same. Our website contains our most up-to-date information, including our response plan and ways you can support us during these times. Thank you for always thinking of us.

With Cov Love,

Jessica

---

How are we staying healthy?

- Cleaning and sanitizing the building multiple times per day
- Use of personal protective equipment & social distancing
- Protective barrier at front desk
