

## Gate Automation

Hampden offers a comprehensive range of market-leading, European gate automation products for seamless integration into any commercial or industrial fence and gate project. Our solutions provide robust, reliable and hassle-free management of pedestrian and vehicle access on and off your property.

## Take Your Fence And Gates To Another Level

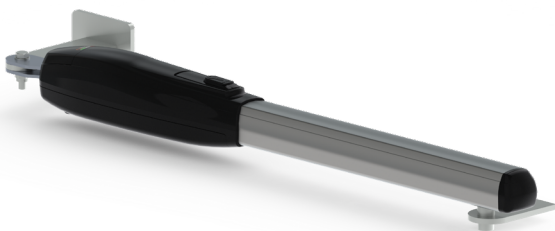

Hampden is New Zealand's largest and most competent perimeter security company, and has completed thousands of fence and gate projects over the past 48 years. Many of these projects have involved automation systems, and this means our experience in these solutions is unmatched in New Zealand.

## World-Class European Technologies

Not all automation systems are equal. Hampden has always had an uncompromising commitment to quality, and with that in mind, we have spent considerable time researching and testing the best solutions from around the world, for use in our clients' projects. The brands we choose are manufactured to the very highest standards in Europe.

### Ideal Application

- Commercial Driveway Gates
- Industrial Access Gates
- Pedestrian Gates
- Security Gates
- Corporate Entrance Gates
- Secure Storage Facilities
