

Custom Timber Fencing

The excellent noise attenuation properties of wood and its plentiful supply in New Zealand make timber fencing a great solution where privacy and good acoustics are required. We offer a wide range of timber fencing solutions, with everything from traditional timber paling fences through to custom-built, contemporary fencing to seamlessly blend into any environment.

A Wide Range Of Timber Fencing Options

Hampden has completed hundreds of timber fencing projects across Auckland and New Zealand, for all market sectors including residential, commercial, industrial and infrastructural. We pride ourselves on our ability to provide a range of custom timber options to allow you to choose the best solution for your needs and budget. Our highly experienced team can work closely with you to design and build a unique timber fencing solution that will not simply meet your specific requirements, but also enhance the style and security of your property. Talk to us today about your ideas for your timber fencing.

Challenging sites - no problem

Hampden's experienced installation teams have pretty much seen it all, so even if you have a difficult, tight or undulating site, getting the right result will not be a problem. We will do a site visit prior to any work being undertaken and outline any significant issues or concerns before work commences.

Custom Timber Enclosures

Hampden is able to design and build custom timber enclosures to protect sensitive areas on your property. Gates can be easily integrated, with varying levels of automation, for easy access. Our experienced team can work with you to develop an enclosure solution that will not only do its job functionally, but will also look great and will be built to last.

Ideal Application

- Boundary Fencing & Gates
- Landscaping Fencing
- Commercial Fencing
- Infrastructural Fencing
- Architectural Fencing
- Timber Enclosures

Hampden has an uncompromising commitment to quality in everything we do. We are extremely proud of our workmanship and we always respect the quality of the materials we use in our completed fences and gates.

Perimeter Fencing to Pedestrian Walkways

Hampden can custom-build fencing solutions to seamlessly integrate into any property. From high-quality full height perimeter timber fences to stylish pedestrian accessway fencing solution, Hampden can help.

Custom Timber Fencing

Timber Bollard Solutions

For areas where pedestrian or traffic control is required, Timber Bollards can provide a stylish and highly functional solution. Hampden is able to customise a timber bollard solution to suit your property and seamlessly integrate into your existing fencing scheme.

Styles To Suit New Or Existing Properties

Hampden can assist with all of the timber fencing requirements of a new housing development including retaining walls and fences, and site boundary fencing. Talk to us today about your development and how we can help. Hampden can provide decorative and traditional fencing products to ensure that the character of your property is seamlessly maintained.

Schools And Recreational Areas

Hampden has a range of stylish timber fencing products that are also durable and cost-effective which make them extremely popular with schools and community parks and recreational areas. These products provide a warm, natural alternative to steel or aluminium fencing which is often desired in high profile community-friendly sites. Talk to us today to discuss your timber fencing requirements and we can provide you with a range of options to consider.

You will generally only need a building consent for fences over 2.5m. However you may still need a resource consent for some fences below this height. Contact local council to check the specific height restrictions and design requirements for your local area.
