

## Security Panel Fencing

Hampden offers a selection of strong quality steel and aluminium fence panels, ideal for a wide range of commercial and industrial applications. All of our steel and aluminium fence panels are durable and offer a medium to high level of security up to 2.1m high.

### Steel Security Fencing

Strong and Durable Security Fencing, full welded hot dip galvanised tubular steel with the option of sharp spear top rods that looks imposing and very difficult to scale. Panels will last well even in coastal conditions due to their hot dip galvanised finish (to relevant HDG standards).

Satin black panels are available as standard and other colours by request. Available in 1.8m and 2.1m either with mitred spear tops or 1.2, 1.5, 1.7 or 2.0m with plugged rod tops.

### Aluminium Security Fencing

Large 25mm SHS pickets rigidly fixed to 40mm SHS rails provides a robust aluminium panel. Offered as a flat top or with pressed spike tops which create a strong deterrent and make scaling these panels very difficult. Being aluminium the corrosion resistance is also high. Standard panel heights are 1.5, 1.8 and 2.1m but also available as 1.2m balustrade.

With the ability to rake up to 30 deg and follow the contours of the land it makes this panel extremely versatile.

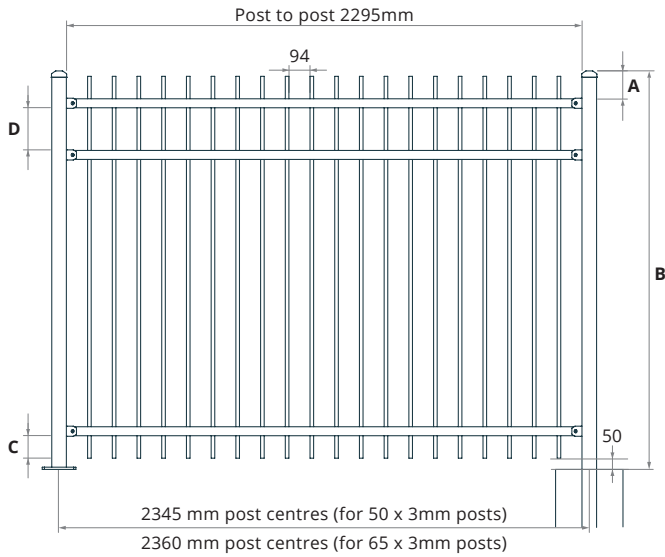

### Ideal Application

- Commercial properties
- Industrial sites
- Community facilities
- Schools
- Car and boat yards
- Storage facilities
- Walkways

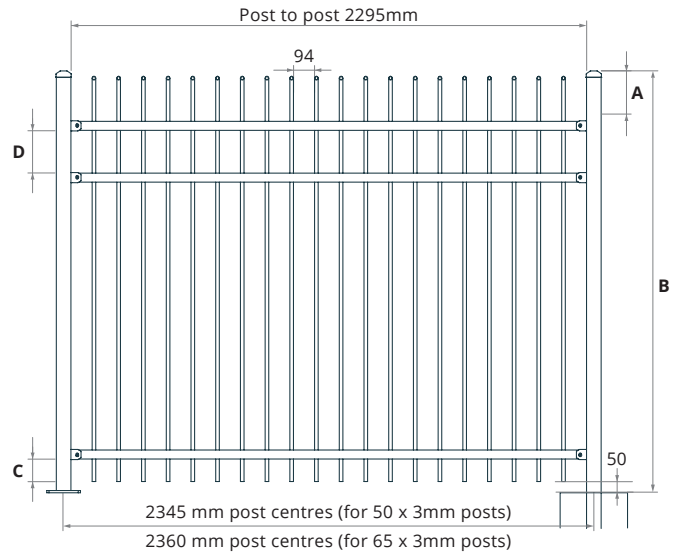

# Security Panel Fencing

## The Chiefs HDG Security Panels And Gates - refer to spec sheet for more details.

Hot dip galvanised steel 3 rails, 30x30mm and 2350mm wide with 16mm round pickets with spike tops or rod tops.

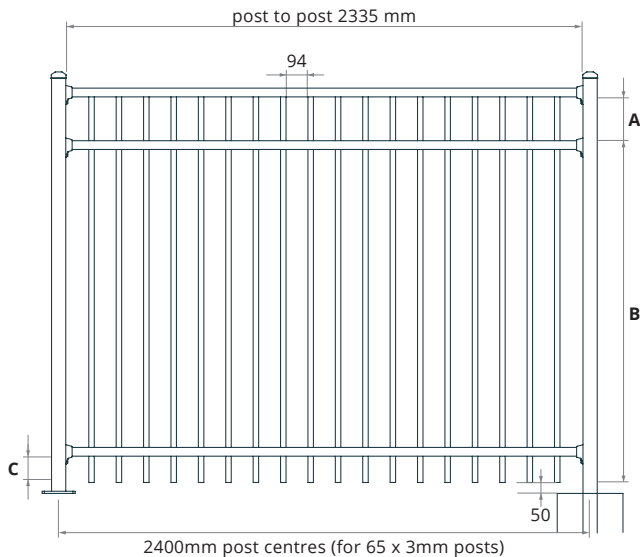

Height	A	B	C	D
m	mm			
1.7	100	1750	100	190
2.0	100	2050	100	390

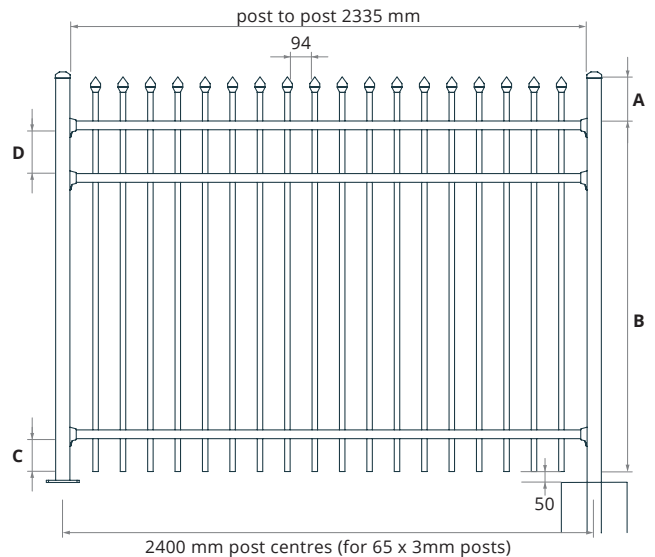

Height	A	B	C	D
m	mm			
1.8	200	1850	100	190
2.1	200	2150	100	390

## The Mercury Tubular Aluminium Security Panels And Gates - refer to spec sheet for more details.

Aluminium 3 rails 40x40mm and 2400mm wide with 25mm square pickets with spiked tops.

Height	A	B	C
m	mm		
1.5	200	1550	120
1.8	200	1850	120

Height	A	B	C	D
m	mm			
1.8	180	1850	120	200
2.1	180	2150	120	200

You will generally only need a building consent for fences over 2.5m. However you may still need a resource consent for some fences below this height. Contact local council to check the specific height restrictions and design requirements for your local area.
