

## Folded Panel Fencing

Hampden offers the highest quality folded panel fencing solutions from New Zealand's leading panel manufacturers. Folded panel fencing is extremely versatile, low maintenance and cost effective, which makes it a popular option across a wide range of applications.

**Compliant with F4 to the NZBC.**

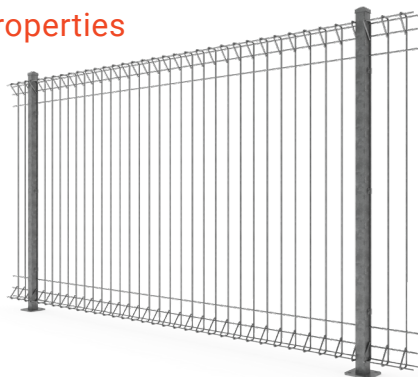

### Low Maintenance, Cost Effective Fencing

Folded panel fencing is a low maintenance fencing solution that is also very cost effective, compared to many other fencing products.

The understated and yet robust nature of folded panel fencing continues to make it an extremely attractive option for budget conscious users such as schools and early childhood centres.

### Excellent Visual Properties

Folded panel fencing offers excellent visibility through the fence, which means it can be used in a wider range of applications including around carpark areas where good visibility heightens security.

### Ideal As A New Or Retrofit Fencing Solution

The distinctive fold-top, hot dip galvanised finish of folded panel fencing means it offers an attractive, symmetrical style that will suit any new fencing project.

Likewise, the understated, clean lines of folded panel fencing allows it to seamlessly integrate with many other steel and timber fencing products.

Pedestrian and full size gates (for vehicular access) are able to be easily incorporated into the finished folded panel fence solution.

### Key Attributes

**Attractive :** Folded panel fencing is visually appealing which means it integrates well into both urban and rural settings.

**Versatile :** Folded panel fencing is able to be attached to galvanised pipe, wooden posts, brick pillars, concrete and other building products.

**Durable construction :** Robust construction and hot dip galvanised finish ensures many years of faultless service.

**Easy to install and replace :** In the event of unforeseen damage, simplicity of replacement ensures restoration of panels can occur with a minimum of delay.

**Resistant to climbing and vandalism :** Folded panel fencing features an anti-scaling gap between the vertical rods without horizontal hand or foot holds to present the maximum deterrent to climbers and vandals.

### Ideal Application

- Commercial Sites
- Industrial Locations
- Airports And Ports
- Motorways
- Playgrounds
- Rail Stations
- Sports Facilities & Parks
- Landscape Fencing
- Swimming Pools & Spa Pools
- Pre-Schools & Schools

# Folded Panel Fencing

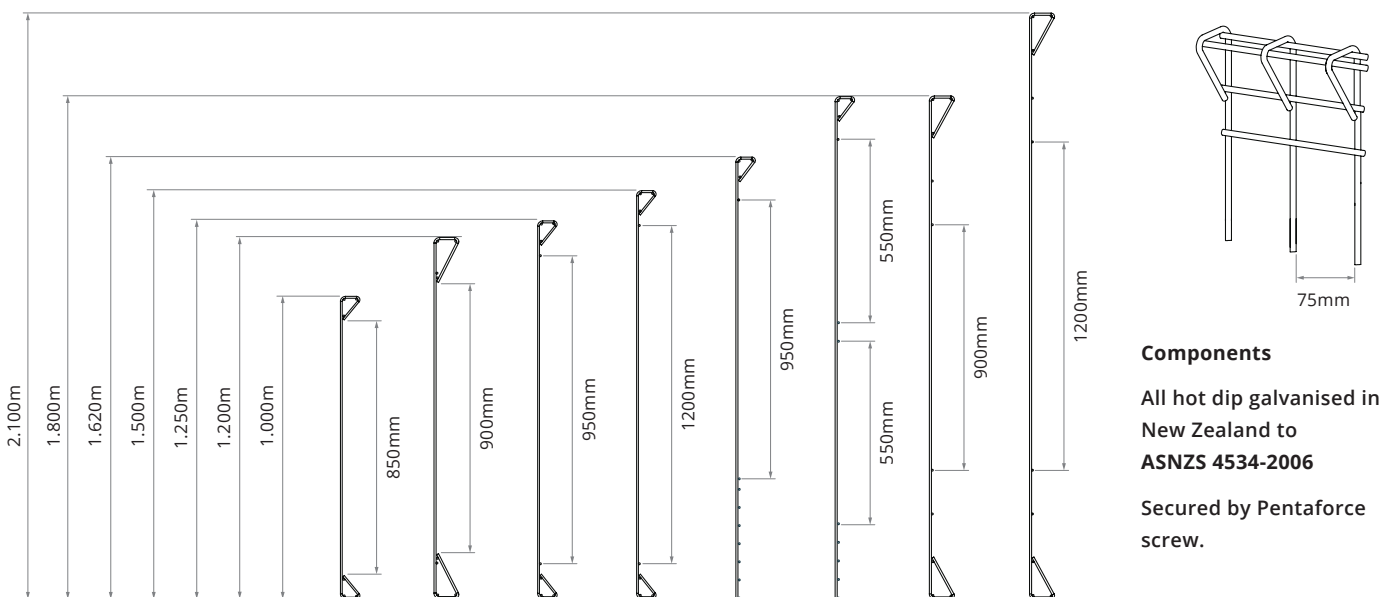

All panels, posts and gates are available in a hot dipped galvanised finish or galvanised and then powdercoated in a range of Dulux colours, Non stock gates can be fabricated to suit specific gateway requirements.

## Folded Panel Guide

<b>Standard Range</b>				
1.000mH	2.400m	6.5mm wire for horizontals and verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.200mH	2.400m	6.5mm wire for horizontals and verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.250mH	1.800m	6.5mm wire for horizontals and 7.5mm wire for verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.250mH	2.400m	6.5mm wire for horizontals and 7.5mm wire for verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.500mH	2.400m	6.5mm wire for horizontals and 7.5mm wire for verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.620mH	2.400m	6.5mm wire for horizontals and verticals	75mm vertical centres folds top only	Hot dip galvanised
<b>Industrial Range</b>				
1.300mH	2.355m	6.5mm wire for horizontals and 7.5mm wire for verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.800mH	2.400m	6.5mm wire for horizontals and 7.5mm wire for verticals	75mm vertical centres folds top and bottom	Hot dip galvanised
1.800mH	2.400m	8.0mm wire for horizontals and verticals	100mm vertical centres fold top only	Hot dip galvanised
2.100mH	2.400m	6.5mm wire for horizontals and 7.5mm wire for verticals	75mm vertical centres folds top and bottom	Hot dip galvanised

\*Complies with New Zealand Fencing of Swimming Pools Act 1987.

You will generally only need a building consent for fences over 2.5m. However you may still need a resource consent for some fences below this height. Contact local council to check the specific height restrictions and design requirements for your local area.
