BISOUS

Colourful, sparkling stones set the mood of our latest collection Bisous - a symphony of ethically sourced sapphires and garnets, aligned to joy, energy and optimism, against a backdrop of classic gold and sterling silver.

This collection is about the intimacy, and the finer details that we have become accustomed to during the last couple of years. We wanted to imbue the collection with a happy, rainbow-inspired colour palette, and named the collection Bisous (French for kisses), as the gems remind us of little, precious kisses.

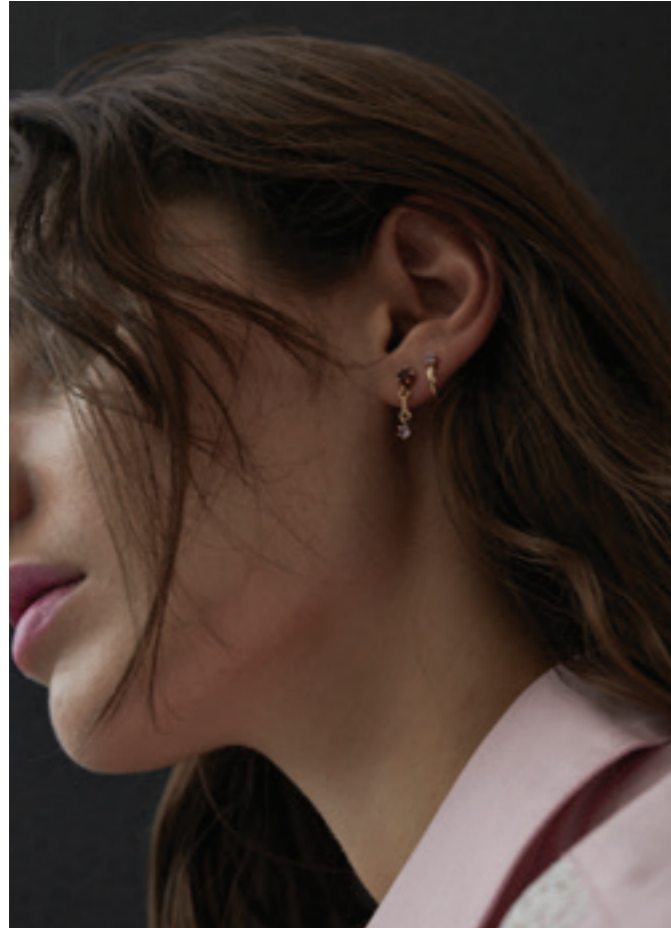

The stones are fully traceable, which means our valued supplier can trace the stones back to the mine from which they were sourced. Their small and trusted network of miners and mine owners, ensures these mines are run in accordance with their strict standards. The network strives to make a positive impact on workers' lives. Their mission is to deliver responsibly mined and fully traceable coloured gemstones to the marketplace through an open, honest, and transparent supply chain and to ensure these products safeguard people and the planet.

The rich red garnets and sapphires in hues of pink and yellow, are showcased across a kaleidoscope of delicate designs including the Trio Ring, Bisous Cluster and Drop Earrings, which feature a duo of coloured gems. These mesmerising designs are complemented by earrings, rings and necklaces showcasing a single stone colour, including the striking Bisous Barbell and Hoop Earring styles.

The jewelled pieces from the new Bisous collection are perfectly balanced by a considered edit of simple, fluid forms that nod to classic styles from the Meadowlark archives.

Like their colourful companion pieces, Meadowlark's treasured, pared-back classic forms - available in sterling silver, gold plated and 9ct gold - are designed for stacking, but can also be worn as beautiful, understated, standalone styles.

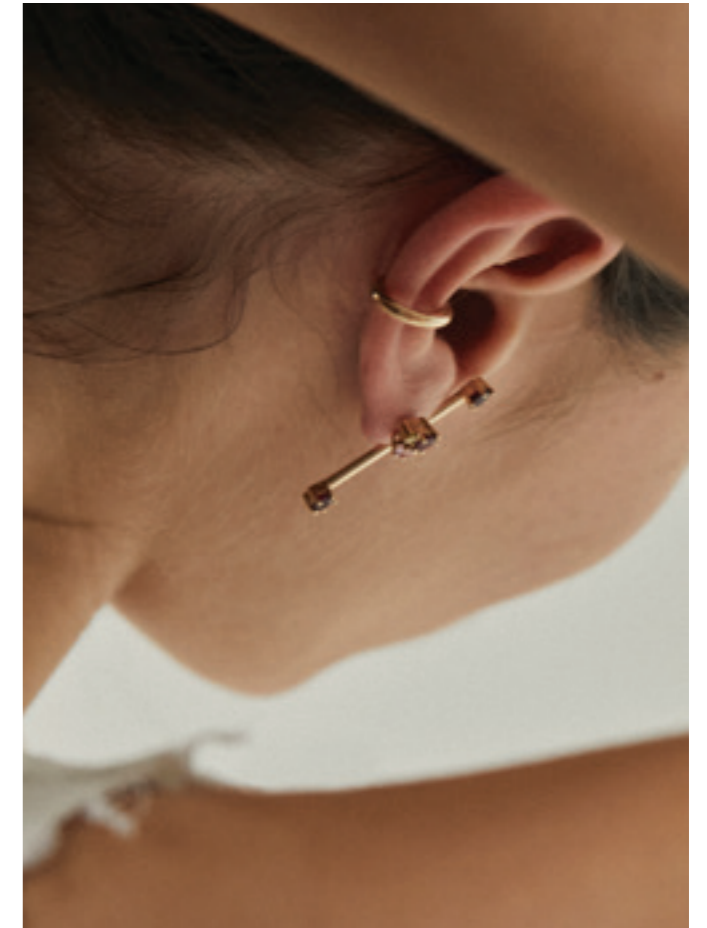

The BISOUS collection will be released through October & November 2022
