Our Goals

1. Prevent Child Abuse Vermont has the public visibility and financial stability to carry out its mission.

2. Citizens of Vermont are aware of the best ways to develop healthy children and families and to prevent child abuse and neglect in its many forms. Empower Children to be Seen and Heard by Expressing and Sharing Their Experience and Points of View.

3. In partnership with communities across the state, exceptional Family Support Programs are available throughout the state at a level adequate to meet the need.

4. All schools, early childhood providers, child-serving entities, and communities across Vermont are able to meet their obligations around child sexual abuse prevention, including those required to comply with Act 1 (2009).

5. All parents of newborns and toddlers and prospective parents receive critical information that promotes safe and healthy environments, preventing abusive head trauma and preventable infant suffocation.
Prevent Child Abuse Vermont promotes and supports healthy relationships within families, schools and communities to eliminate child abuse.
