This child sexual abuse prevention program includes three developmentally appropriate, trauma-informed, victim and perpetration prevention curricula, Care for Kids, We Care Elementary, and SAFE-T. The program includes events and newsletters for parents, training for faculty and staff of schools, and student lessons.

**Empirical Basis & Evaluation Results**

The Healthy Relationships Project is empirically-based and has excellent evaluation results that are publicly available on our website.

**Current CDC Study Underway!**

The Centers for Disease Control has funded a four-year study of the Healthy Relationships Project. The study is conducted by Northeastern University in collaboration with the Jane Addams School of Social Work at the University of Illinois, Chicago. The implementation involves 16 Washington D.C. charter schools.

- Descriptions & Calendar

The Adult Responsibility Project is a series of eight child sexual abuse prevention trainings for adult audiences on the prevalence, risk factors, and protective factors. Participants of these virtual, two-hour, interactive, discussion-based trainings show increases in knowledge and skills known to prevent child sexual abuse from happening in the first place.

EVERYTHING EVERYONE NEEDS TO KNOW TO PREVENT CHILD SEXUAL ABUSE®
