BUDGET TIER

- Select a budget tier
 - Tier 1: \$5,000 - \$10,000
 - Tier 2: \$10,000 - \$30,000
 - Tier 3: \$30,000 - \$50,000
 - Tier 4: \$50,000 - \$75,000
 - Tier 5: \$75,000 - \$100,000

BUDGET TIER

- Select a budget tier that accurately represents costs associated with the work you envision.
- Think about costs associated with prep work, preliminary research, supplies, labor, and artist and organizer fees.
- There is a budget template linked in the application that will help you estimate costs and select an appropriate budget tier.

THINK ABOUT:

- **Artist Fee(s) - 20%**
Compensation to the artist or artists for time spent researching, designing, conceptualizing, and performing other forms of creative labor associated with developing their work. Please note: All participating and collaborating artists and organizers must be paid.*
- **Fabrication / Production - 20%**
Can be paid to fabricators or producers hired by the artist / organizer, paid to the artist / organizer who completes their own fabrication or production, or a combination.
- **Project Installation / Execution - 20%**
Includes all costs associated with site preparation, maintenance, rentals, lighting, community partnerships, etc.

THINK ABOUT (CONTINUED):

- **Documentation - 5%**

Can include costs associated with purchasing photo and/or video equipment to creating documentation, contract fees to hire professional photographers and/or videographers, or a combination.

- **Travel - 5%**

Includes gas, truck rentals, and all other travel costs associated with the project.

- **Contingency / Miscellaneous - 10%**

A fund to pay for unforeseen project costs. If not used, can be paid to the artist / organizer.

- **Taxes - 20%**

General guidance for independent contractors suggests budgeting approximately 20% of any payment over \$600 back for taxes.

IF YOU'RE HAVING TROUBLE GETTING STARTED:

Consider establishing an hourly rate as a place to start:

Think of how much you need to make annually to live without financial panic. Then, divide that number by 1,500. As a general rule, artists who work 1,500 hours / year find financial sustainability.

For example, if you need to make \$60,000 a year:

- $\$60,000 / 1,500 = \40 (\$40 / hour would be your hourly rate)
- $\$40 \times 8 = \320 (\$320 would be your day rate)
- $\$320 \times 5 = \$1,600$ (\$1,600 would be your weekly rate)

BUDGET

Please keep in mind:

- If selected for an interview, you'll be asked to complete a line item budget with estimated costs that reflect the budget tier you select in your application.

- Consider both the breadth and depth of your sample and feel free to include detail and/or installation images

WORK SAMPLE

For still images:

- Upload up to ten JPG, TIFF, or PNG files. Files should be sized at a minimum of 1920 pixels on the longest side and no larger than 5.0MB maximum
