HOW TO FEED YOUR DOG PILLS

1. WITH ONE HAND, GENTLY GRASP THE SIDES OF YOUR PET’S UPPER JAW (THE AREA BEHIND THE CANINE TEETH).

2. USING YOUR OTHER HAND, HOLD THE PILL BETWEEN YOUR THUMB AND INDEX FINGER.

3. TILT YOUR PET’S HEAD UPWARDS SLIGHTLY. THEN USING YOUR MIDDLE FINGER, GENTLY PUSH YOUR PET’S LOWER JAW DOWNWARDS. THIS OPENS HIS/HER MOUTH.

4. PUSH THE PILL AS FAR BACK INTO THE MOUTH AS POSSIBLE, CLOSE TO HIS/HER THROAT.

5. QUICKLY HOLD THE JAW CLOSE AND MASSAGE YOUR PET’S THROAT GENTLY. YOU MAY ALSO FEED YOUR PET SOME WATER USING A SYRINGE TO HELP HIM/HER SWALLOW.

CHECK IF YOUR PET HAS ACTUALLY SWALLOWED THE PILL. IF NOT, DON’T STRESS AND JUST TRY AGAIN.
