

Pixipixel Hired-In Equipment Insurance Requirements

When hiring any equipment from Pixipixel it is the client's responsibility to insure the equipment that they hire. An insurance document must be provided by our clients to demonstrate that our equipment is always covered by a valid insurance policy.

Here are some specific requirements that must be met:

- The hired-in equipment insurance must be in the same name and address as your account application with Pixipixel. It must clearly show hired-in equipment amount to cover the equipment value and cover the dates of hire including collection and return of the equipment.
- Hired in Equipment Coverage: This amount must be listed on the policy and will need to provide enough cover for all equipment being hired on your production – not just from Pixipixel. Your Pixipixel Account Handler can provide you with the value of the kit hire from us and this will be based on a “new for old” basis, please make sure that the total amount being rented for your production does not exceed the limit outlined in your policy. Pixipixel should be listed as “Loss Payee” under Special Provisions.
- Continuing Hire Charges: In the event of a claim your insurance policy must cover Pixipixel for continuing hire charges up to a minimum of 13 weeks, this is to enable Pixipixel to replace, or sub hire the equipment lost and not lose out on future revenues whilst it does not have the equipment to service other shoots.
- Please note “Unattended Vehicle Theft Exclusion” will not be accepted. Please confirm with your insurance provider that you will be covered in the event that equipment is lost, stolen, or damaged while in an unattended vehicle. If it is not covered and a theft or loss happens your company or production could be liable if your insurance company does not settle the claim.
- International productions shooting in the UK must have UK-based insurance. UK productions shooting outside of the country must provide a policy showing worldwide coverage on rental equipment.

We recommend [Performance Film & Media Insurance](#) for hired in equipment cover.

Pixipixel Rental Ltd., 370-375 Geffrye Street, Hoxton, London, E2 8HZ
