# Description

Autoprep Gel is grey coloured abrasive paste for mesh treatment. None of the components are considered hazardous when used for the stated application.

**READ ENTIRE TECHNICAL DATA SHEET BEFORE USING THIS PRODUCT**

## Application

Autoprep Gel is sold strictly for use in the screen printing industry for surface roughening pre-treatment of polyester and nylon mesh prior to stencil application. It is suitable for all stencil systems and enhances stencil life time.

## Features & Benefits

- Abrades and degreases meshes in one application.
- Increases the adhesion of all stencils.
- Convenient application via squeeze bottle.
- Biodegradable.
- Ensures maximum print durability for all film based photo-stencil systems.

## Working Instructions

For unused polyester/nylon mesh and for repeat application on used mesh

A) Wet both sides of the mesh with a water spray.

B) With a Alkemi Brush, apply in a circular motion a small amount of Autoprep Gel to both sides of the mesh and leave to stand for 2-5 minutes.

C) Wash off thoroughly from both sides of the mesh with a strong water spray.

D) Repeat application on used meshes after every 5 stencils for best results.

## Ink Compatibility

N/A

## Shelf Life & Storage

Autoprep Gel should be stored between 5 to 30°C (40 to 86°F). Do not freeze. Shelf life at these conditions is 12 months.
PACKAGING

Autoprep Gel is available in trade packs of 12 x 1 Kg and 2 x 5 Kg.

WASTE TREATMENT

Prior to using any recommendations or suggestions by MacDermidConnect for waste treatment, the user is required to know the appropriate local/state/federal regulations for on-site or off-site treatment which may require permits. If there is any conflict regarding our recommendations, local/state/federal regulations take precedent.
