**DESCRIPTION**

Universal Mesh Prep is a thickened liquid for degreasing and improving the wetting characteristics of all meshes.

**APPLICATION**

Universal Mesh Prep is especially recommended for use with all capillary stencil systems, in order to hold an even film of water on the mesh for easy film application.

**FEATURES & BENEFITS**

Excellent wetting characteristics allowing the mesh to hold an even film of water, convenient application via squeeze bottle, non-hazardous and biodegradable. Ensures perfect results when used prior to mounting of capillary films. Reduced ‘fish eyes’ and streaks when used prior to coating of direct emulsions.

**WORKING INSTRUCTIONS**

1. Rinse screen thoroughly with water.
2. Apply Universal Mesh Prep to both sides of the mesh and rub in with a brush.
3. Leave to stand for 1 minute.
4. Wash off with a strong water spray.

For unused synthetic meshes use Autoprep Gel to first abrade the mesh. Do not allow Universal Mesh Prep to dry on the mesh.

**PACKAGING**

Universal Mesh Prep is available in trade packs of 12 x 1 Litre, 2 x 5 Litre, 1 x 20 Litre and 1 x 210 Litre.

**SHELF LIFE & STORAGE**

Universal Mesh Prep should be stored between 5 to 30°C (40 to 86°F). Do not freeze. Shelf life at these conditions is two year.

**SAFETY & WARNING**

MacDermidConnect recommends that the company/operator read and review the Safety Data Sheets for the appropriate health and safety warnings before use. Safety Data Sheets are available from MacDermidConnect.

**WASTE TREATMENT**

Prior to using any recommendations or suggestions by MacDermidConnect for waste treatment, the user is required to know the appropriate local/state/federal regulations for on-site or off-site treatment which may require permits. If there is any conflict regarding our recommendations, local/state/federal regulations take precedent.
