Episode Question Ideas: Episode 88

The Unbearable Lightness of Cultural Resources: An Adaptation Story with Dr. Marcy Rockman

Full Episode Questions

- Dr. Rockman observes that society prioritizes time over resources. In what ways do you see this happening in your community? What technological innovations might help people preserve resources while not constraining their time? Dream big!

- How is cultural heritage in your community being impacted by climate change? Who are the decision-makers involved in preserving cultural heritage in the face of climate change threats? What are their priorities? What challenges are they facing?

- How does this episode help you think about the intersections of the humanities and climate science in new ways? What new career paths does it present that you hadn’t previously considered?

- One underlying theme in this episode is the idea of prioritizing what to save and what not to save. How do you make those decisions?

Segment Questions

- At 10:00, Dr. Rockman asks why we, as a society, tend to value convenience and time over the environment. Have you ever considered this question? What are your thoughts on this? Why do you think society has shifted to this focus?

- At 55:00, Dr. Rockman begins to describe the tensions between natural and cultural resources, and shares an observation from a colleague that the concepts of nature and culture are gendered, but that management of nature and culture are oppositely gendered in our societal framing. What are the implications of genderedness in this context?
Related Open Education Materials

Learn more about issues raised in this episode! You may find the following open educational resources from MIT OpenCourseWare of interest.

11.947 History and Theory of Historic Preservation

This course gives students a grounding in the history, theory and practice of historic preservation and how laws, public policies and cultural attitudes shape how we preserve or do not preserve the built environment. Educators have access to lecture notes, assignments, and an extensive reading list including resources from the National Park Service.
