# FINANCIAL PROFILE

## 2019 Expenses

As outlined by the Better Business Bureau (BBB) Standards for Charity Accountability, a non-profit organization should spend no more than 35 percent of related contributions on fundraising. SVF held expenses to approximately 6.8 percent – well under the BBB recommendation.

## Annual Outbound Donations

Each year, SVF identifies opportunities to support initiatives that meet the needs of cancer patients. To date, we've donated over **\$730,000**.

## RECENT HAPPENINGS

### Flights to Fight Cancer

The Steven Vanover Foundation held our first formal dinner gala, Flights to Fight Cancer, on Feb. 15, 2020, at Mellwood Art and Entertainment Center. Guests enjoyed flights of craft beer, wine, bourbon, and food as well as dinner, dancing, live and silent auctions, and more. Nearly **\$175,000** was raised to help fulfill our pledge to the Norton Healthcare Foundation to bring advanced genomics lab technology to Norton Cancer Institute.

The event would not have been possible without the generous support of donors, sponsors, attendees, and volunteers. Special thanks to MHS, Millennium Events, Michter's, Old 502 Winery, and Tito's.

### Pledge to Memorial Sloan Kettering Cancer Center

After several years of supporting the Phase I DSRCT clinical trial at MSK, we have made a formal commitment to support Phase II and beyond. With our **\$200,000** pledge, we have established the Steven Vanover Foundation Fund for DSRCT Research and will bring our total support of the trial to over \$500,000. As the physicians move into the next phase, their focus will shift to the implementation of methods to monitor the effectiveness of the therapies and treatments developed in Phase I.

**We are thrilled to make a difference in cancer care on both a local and national level. Without your support, we wouldn't be making strides toward a cure for rare cancers like sarcoma, and DSRCT in particular. Thank you for your continued support!**
