SCHOLARSHIP APPLICATION

Pacific Marine Mammal Center (PMMC) rescues, rehabilitates, and releases marine mammals and inspires ocean stewardship through research, education, and collaboration. As part of our education mission, we wish to make opportunities to learn about marine science accessible to all individuals. This scholarship is specifically dedicated to furthering diversity, equity, and inclusion within the field of marine science. This scholarship will provide support for children (ages 8-12) from underrepresented racial and ethnic backgrounds, gender identities, sexual orientations, and/or individuals living with disabilities who show a genuine interest in marine science, and who may not otherwise have the financial resources to participate in our Ocean Heroes program.

In this on-site after school science program, children are engaged in marine science and conservation topics through the world of marine mammals. Participants learn about these animals, their adaptations, and what life is like under the sea. The program activities include: hands-on lab experiences, guest speakers, games, crafts, and even an off-site excursion! These activities are designed to educate, build awareness, and increase interest about the environment, marine life, conservation, and ocean stewardship. Fall semester scheduled to begin October 2021.

The scholarship will cover the full tuition ($135) for one student to attend the Ocean Heroes program. 

Note: Participants must have their own transportation to and from PMMC. The scholarship will be awarded based on the greatest financial need and stated motivation to learn and share knowledge acquired in the program for the benefit of marine mammals around the world.
